

6,000 Austrians taken Prisoners.

FATHER POINT, before Quebec, July 8.—The steamer Hungaria, from Liverpool, has passed this point on her way to Quebec. She brings dates to Wednesday, the 29th ult., and has made the trip to this point in about nine days.

The steamer America arrived out on the 20th, the Harmonia on the 27th, and the Indian on the 29th ult.

The steamer City of Baltimore having had her propeller replaced by a new one, called on the 29th ult., for New York.

The steamer Weser has been detained on account of an accident to her propeller, and was to sail on the 30th ult.

From the seat of war there have been no movements reported by the Allies since the battle of the 24th. The details of the action have not been received.

The Austrian and Sardinian accounts report extraordinary heavy losses in killed and wounded. The dispatches from the Emperor Napoleon report the capture of six thousand prisoners, three flags and thirty cannon.

The Austrian troops have recrossed the Minio.

Gen. Hess has been appointed Commander-in-Chief of the Austrian forces.

LONDON, June 29.—The latest despatches from the seat of War, report that the French troops have crossed the river Minio.

Further from Mexico.

NEW ORLEANS, July 8.—The steamer W. H. Webb, from Matatlan, has arrived up.

The following additional intelligence is furnished: The conduct of five millions was released by General Robles on the demand of Minister McLane, through Captain Farragut, of the U. S. Sloop-of-War Brooklyn.

The war news are unimportant. General Cobos was reported dead. Ex-President Zuloaga continues under the protection of the British Minister O'way.

Miranda had decreed the restoration of Santa Anna's private property.

LEAVENWORTH, K. T., July 7.—The express from Denver City has arrived here, bringing dates of the 30th ult. The accounts from the gold region continue flattering. The Indians were very troublesome, an expedition to chastise them was talked of.

Mr. McCoy, who left Denver City on the 24th ultimo, informs the St. Joseph Gazette that only eight or ten claims have been discovered that pay. These are on the Gregory Road, the rest being all a desert.

He says the reports of the richness of other claims absolutely false, and that the miners were leaving in large numbers. Some three thousand wagons are now on a return trip. Mr. McCoy estimates that there now about five mines from 25,000 to 30,000 persons, most of whom are doing nothing, or working for their board. He says the mines will not support more than 5,000 people, and advises everybody to stay at home.

One hundred and thirty-six troops from Carlisle Barracks, arrived here to-day en route to Santa Fe.

NEW ORLEANS, July 7.—The steamer W. H. Webb has arrived here from Matatlan, with San Francisco dates to the 20th ult., one week later than the advices by Overland Mail.

The sterners Sonora and Orizaba left San Francisco on the 24th with two millions in treasure and 600 passengers.

The money market was tight. The political excitement was increasing. The Anti Lecompton Democrats have nominated Mr. Caury for Governor, and Messrs. McKibben and Booker for Congress.

James F. Kennedy, Esq., a native of Philadelphia, but for the past ten years a resident of California, received the Republican nomination for the office of Lieutenant Governor at that State.

Advices from Vera Cruz state that the conduct, with 5,000,000 in specie, had arrived at Vera Cruz and was awaiting shipment.

Business at San Francisco had improved. Rio coffee was quiet at 16 cents.

CHASED BY WOLVES.—On Saturday, the 11th inst., while a party, consisting of Mr. John Strayer, Jr., and Henry Lamb, were on a piscatorial expedition, for trout, near the headwaters of Big Run, in Anderson's Gap of the Shade Mountain, about five miles west of McAlisterville, they were startled in the midst of their sport by the howling of wolves. From the noise the "warmits" made, the amateur disciples of Isaac Walton concluded that the pack comprised four in number. Being convinced of their danger, they cut and run, perhaps, with a speed that would have reflected honor on a 2.40 nag on a plank road, for the nearest settlement. After an exciting chase for a mile and a half, the open country was gained, and the wolves abandoned the pursuit. At one time the foremost wolf was not more than fifty yards in the rear of the young men.—*Journalist (Pa.) Sentinel.*

On last Tuesday the lightning struck a tree in the grove of Rev. F. Haidkeper, a short distance from his house, and injured it to a great extent. The shock was a sharp one, and strongly affected a number of persons in the neighborhood. One lady, standing near a store with a teakettle in her hand, was so severely shocked that she fell to the floor, but soon recovered.—*Crawford Dean.*

A bolt of lightning struck a tree near Spangenburg, S. C., stanning several young men who were under it, and killing a Mr. Nott. On the person of the latter, a complete photograph of the tree was stamped, notwithstanding this part of his body was protected by his clothing.

MOUNT VERNON.—Only \$30,000 of the Mount Vernon fund (\$200,000) remains unpaid. The amount will soon be raised, and then the property will be formally transferred to the Mount Vernon Association. Some \$20,000, it is said, will be required to put the estate in order.

In the libel case of Smith vs. N. Y. Times for publishing Donnelly's dying declaration, that the proprietor of the Sea View had himself committed the murder of which Donnelly was convicted, a verdict for six cents damages has been rendered.

A bill is pending in one of our western legislatures to empower women to make contracts. They should by all means be authorized to contract—they have been expanding too much.

THE WEATHER.—The delightful weather which has succeeded the late unusual cold, makes one feel very much like a child up on being restored to good humor after a spell of the "poufs." It is so delightful that we can scarcely realize that it is ever otherwise. The weather is indeed, charming to the senses, and of the most favorable character for the growth of vegetation. We hope it will continue, indefinitely.

From the Central Press.

The Late Hon. James Burnside.

Judge Burnside was born and reared in Bellefonte. He was the oldest son of Hon. Thomas Burnside, at one time President Judge of the old Fourth Judicial District, and afterwards, for a series of years, one of the Justices of the Supreme Court of Pennsylvania. The education of the son commenced under the care and supervision of the father—but at an early age he entered a student in Dickinson college. He commenced his collegiate life under the most flattering auspices, and long before he graduated displayed an intellectual and poetic, which afterwards distinguished him as an advocate and jurist. He graduated with the highest honors—leaving behind him a reputation for the college which conferred his diploma, and carrying with him to the beginning of his professional studies, the merit of a brilliant collegiate recommendation. His study of the law was prosecuted in his father's office—he was admitted by the court in which his father presided, and at once commenced the practice of his profession under the same stern and impartial regime. As a lawyer we leave others to testify to his worth. Hundreds of people who have been his clients, have been daily doing this, while the position which he held at the time of his death, was sufficient proof of the confidence reposed in him by the legal profession and the public. In 1847, he was elected by the people of this county, to represent them in the State Legislature—and while in that position, no man gave better proof of high ability. Faithful to his own constituents, and jealous of the interests and rights of his own locality, he never allowed his prejudices if he had any, to prevent him from feeling that while he represented Centre county, he was there to legislate for the whole State. He was, after he had closed his legislative career, appointed by Gov. BALDWIN, President Judge of the Twenty-fifth Judicial District, composed of the counties of Centre, Clearfield and Clinton, and afterwards in 1853, elected to the same position without party contention or opposition. How well he has succeeded, the voice of the bar and the people amply testify. The record which he leaves will constitute a monument more lasting than marble or brass. His decisions have stood the test of the highest tribunals—while his exposition of the law has been accepted as sound, impartial and learned. In his capacity as a Judge he will not be forgotten as long as strong common sense and truth are quoted for justice. The judicial eminence he has justly earned, was left as pure and spotless as when assumed by him, and his successor will find that the bench will afford a high credit by emulating his calm impartiality—for in this JAMES BURNSIDE was eminently distinguished, that he knew none while on the bench, yet off of it he was a lenient citizen and indulgent friend. In the exercise of his judicial power his decisions and sentences were blended with mercy and justice, so that while he divested the law of all terror and tyranny, he increased the dignity, extended its influence, and rendered its power potential.

In his private relations, and those which brought him in social or the every day business intercourse with the world, JAMES BURNSIDE displayed many qualities of head and heart, which endeared him to his friends and the people. His nature was kind and his impulse generous. In society he could mingle in every sphere, and in any circle moved with dignity. His loss will be sadly borne for many a year. The sudden blow which deprived a wife of a husband, and children of a father, has also deprived the community of a useful citizen. We leave him thus in his untimely years, full of honor, but with only half his years of usefulness expended. Had he lived, higher honors would have been bestowed on him. But the honors which he had won and the character which he leaves behind, are sufficient to embalm his memory in the hearts of his fellow-citizens.

All Neuralgic affections are relieved in from five to thirty minutes, and soundly cured by the free use of DU VALL'S GALVANIC OIL. Price 50 cents a bottle.
