UNION-SONG AND CHORUS.

BY GRORGE P. MORRIS.

This the word beyond all others, Makes as love our country most; Makes as feel that we are brothers, And a heart-united host!

With hosaum let our banner From the house tops be unfurfed, While the nation holds her station. With the mightiest of the world CHORUS.

Take your harps from silent willows. Shout the chorus of the free: "States are all distinct as billows, Union one -ns is the sea !"

From the land of groves that bore us He's a traiter who would swerve! By the flig new waving o'er us We the compact will preserve ! Those who gained it, and sustained it, Were unto each other true, And the fable well is able To instruct us what to do!

Tone your harps from silent willows. Shout the chorns of the free! States are all distinct as billows.

From all accounts, when Gen. Washingwith just that sort of intensity that gives us an idea of suppressed power of a strengh we do not quite see.

In the volume recently prepared by the executors of Richard Rush, entitled "Occasional Productions," we find an anec-dote illustrating this. When, in 1791, the officer arrived with dispatches announcig the defeat of St. Clair, Washington was at dinner. His Secretary, therefore, left the table to receive them, but the messenger Secretary returned, and Washington left back, he made an apology for his absence, whole evening. At ten o'clock the company had all gone, and Mrs. Washington retired, leaving only the General and his Secretary, who described the scene.-Washington walked the floor for some minutes, and then sat down. But it was "It's all over-St. Clair's defeated-routed-the officers nearly all killed, the men shocking to think of, and a surprise into Doodle doo." the bargain!"
