What's Bid for Forney!

The result of the elections for Representatives to the next Congress has been most disastrous to the high hopes of the author of the Forrest letter, who, as he terms them, is exclaiming—"Othello's occupation's go ne."

But keeping an eye to the main chance, the chevalier is already looking around for a fresh corner in the Republican wigwam, and in order to attract bidders, he is blowing his horn most lustily. He is ringing out that his name on the back of a Democratic nomination in 1856, brought seventy thousand majority, and then its transfer to the Republicans, in 1860, brought seventy thousand the other way. That's big work, and calls for a heavy bid.

The chevalier cannot be knocked down for a small pile, and at his own estimate, nothing less than the keys of a department will be high enough. His hungry competitors, though, they are swearing that he has already been bought, paid for and delivered, and upon closing up the account, they find he has got more than he is worth. Just about this time feeling strong enough without him, they are disposed to give him short commons, and the chevalier sees heavy work ahead in rowing his boat.

With Haskins, Reynolds, Adrian and Biggs overboard, Schwartz no more, and a notice to quit served on him by Hickman, he is in a tight place, with a hand not good enough to go it alone.

We know the chevalier will not give us proper credit for it but we do protest against his Republican friends shoving him off without even a bone. If they did buy him and pay for him, it was not for all time. Political harlots in no wise differ from others of the kind, and if they want him a_ain, they ought to pay for him.—So up with the chevalier once more.—What's bid?—*Pennsylvanian.*

A Floral Question.—Nobody ever yet saw a blue dahlia, or blue rose, or a yellow aster or verbena. Will such things ever be seen? Some persons think so, and foreign florists are hard at wotk in hybridizing, hoping to accomplish it, but their success is very doubtful. And for this good reson, viz: Blue, red and yellow are the three primary colors, and the different hues found in the varieties of any species of flower, are prodduced by crossing flowers which have these different colors. Thus, the original colors of the verbena in a wild state were red and blue; and by crossing these we can get shades of red, blue and purple, but *not yellow*. The wild dahlias are red and yellow, and by crossing them, we get shades of red, yellow and orange, and white, *but not blue*. So far as our observation extends, no genus of any flower contains all the primary colors; hence, if the above theory be correct, none of the varieties can monopolize all the shades of color. One will lack red, another blue, and so on: hence the necessity of combining flowers of different sorts, if we would get all shades of color.

Governor Bank's position in connection with the Illinois Central Railroad, for the purpose of assuming which he has gone to Chicago to reside, is that of 'resident director.' He represents the president and directors, who are scattered over the country and Europe, and cannot attend to the vast duties required of them from day to day; this additional office is found to be necessary. He sits as grand supervisor of the entire business of the corporation, which is divided into departments like the government of a State, only more vast and difficult than the government of most of our States. If a question arises which he declines to take the responsibility of settling, he can, if he chooses, submit it to the next regular meeting of the directors. Governor Bank's salary is to be $8,500 a year; which is $4,500 more than he received as Governor of Massachusetts.

Oil Excitement at Tidieute.—New discoveries of valuable oil wells are being made nearly every day, says the Warren *Ledger*. Everybody seems to be carried away in the whirl of excitement, and this section of the State is destined to rival California in its palmiest days. The center of excitement is around Tidieute Island at present. This Island contains some four acres, and, until within a few months was considered of no value; consequently it remained in the possession of the Commonwealth till the time mentioned, when a citizen of Warren took out a patent for it at Harrisburg. Some valuable wells have been found upon the Island, and the "squatters" have taken possession of all adjacent bars and shoal places in the river.

The Stars and Stripes.—Washington seems to have been the inventor of the thirteen stripes, signifying the Union of thirteen colonies. This flag was raised in January, 1776, and was confirmed by Congress in 1778, with the addition of thirteen stars on a blue field. On the 24th of April, 1813, it was enacted by Congress that the United States flag should consist of thirteen stripes, alternrtely white and red, with twenty stars, white on blue field, and that one star should be added for every new State, the addition to be made on the 4th of July following the admission of each State.

Bishop O'Connor's Successor Appointed.—His Holiness, the Pope, has appointed Reverend Michael Dominec, of the Congregation of the Mission, Philadelphin, Bishop of the Diocese of Pittsburgh, vice the right Rev. Michael O'Connor, resigned. Bishop Dominec has long held a prominent position in the Church, though we believe he is but little known here.—He has been for a number of years pastor of the Church of St. Vincent de Paul, of Germantown, and edjoys a wide reputation for learning and piety. Outside the clergy there were few here who anticipated his appointment.

Dead.—Dr. John W. Coulter, a member of the last legislature from Westmoreland county, died at his residence in Latrobe last week. The deceased was re-nominated by the democracy this year, but owing to ill health he declined to stand a canvass, and refused to run. He was a prominent member of the Masonic order, and was interred by members of that order—a large concourse of people following his remains to the grave.

A car built wholly of Iron is now on the road between Pittsburg and Cleveland. It will be much safer for passengers in case of a collision, as the material resists crushing, and will be entirely free from splinters. The manufacturers intend to run it over various roads, for the inspection of the public.

It will be observed that Mr. Douglas has not received one State, unless it be California and Oregon, which have not been heard from. It is true he has three Electors in New Jersey, which were given to him against the express will of Mr. Douglas and his friends, by forming a union Ticket.

An adjourned Court is in session this week, present, Judges Linn, Moore, and Ronsall. But, few cases will be tried during the term, most of them having been settled or continued. We will publish the proceedings next week; up to the time of going to press nothing had been done in the case of Commonwealth vs. Cathcart, wherein a motion is pending for a new trial.

The Practibal Effect.—Out of *seventeen* Commonwealth cases tried at the recent term of the Court of Quarter Sessions of Chester county, as reported in the West Chester *Republican*, of the 6th instant, no less than *ten* of them were *gentlemen* of color. Chester county is strongly Republican.

Baked Quinces.—A correspondent writes that a new sensation is in store for those who have never eaten quinces baked like apples and eaten with sugar and cream. His plan is to take fair, ripe quinces, bake them rather quicker than apples, cut them open and remove the core, which will come out, if the fruit is properly cooked, like a nut from a shell. Sprinkle on white sugar, and eat them before they are quite cooled, adding milk or cream. The fruit cooked and eaten in this manner has a dilicous flavor which would scarcely be imagined.

It is said that Mrs. Dan Rice has brought in a suit for divorce against her husband. The wrongs of which she complains are not stated.

How Mr. Lincoln Voted.—A dispatch from Springfield, Ill., speaking of Mr. Lincoln's visit to the polls on Tuesday, says:

"Mr. Lincoln advanced as rapidly as possible to the voting table, and handed in his ticket, upon which it is hardly necessary to say, all the names were republicans. The only alteration he made was the cutting off of his own name at the top where it had been printed. As he emerged, after voting, from the temporary enclosure, the manifestations of enthusiasm were frequent, and Mr. Lincoln removing his hat, bowed in acknowledgement.

Postmaster Arrested.—D. W. Moore, special agent of the Postoffice Department, on Saturday, arrested John A. McConnell, assistant postmaster at Newry, Blair county, Pa., on a charge of robbing the mails. In default of bail he was committed to prison to await his trial at the next term of the U. S. District Court for the Western District of Pennsylvania.

In the case of Wm. Byerly, convicted of the election fraud in Philadelphia, the court refused bail, and he was committed to await sentence. The punishment affixed by law is an imprisonment not to exceed three years, a fine not to exceed $1,000, and deprived of citizenship.

A NOVELTY in the ART WORLD!!—PHOTOGRAPHY UPON PORCELAIN.
Secured by letters patent in the United States, England, France and Belgium.
The American Photographic Porcelain Company, No. 781 Broadway, New York, having secured their novel and ingenius invention by American and European patents, are fully prepared to execute all orders for
Miniature Likenesses of Persons on China,
presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a hitherto unattained quality of durabilty, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.
As the patented process of the Company enables the reproduction of photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity, portraits can be reproduced with faultless accuracy and deliency of delineation, upon Porcelain wares of any description and dimension used as articles of luxury or of household utility, such as Urns, Vases, Breakfast Cups, Toilet Articles, &c.; thereby securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.
In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the fine arts desirous of having portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they will sell at cost prices.
As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to afford people in every section of the Union an opportunity to possess portraits on China, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and Galleries in New York:
Persons sending a photograph, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by $5, will receive in return by express, free of charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon
By transmitting a daguerreotype and $10, they will receive, in like manner a handsome French Vase or Ornament Article, with the portrait reproduced by the patented process.
By sending a pair of daguerreotypes and $15, they will receive in return a pair of rich Sevres Vases, with the portraits executed equal to miniature paintings; and, in like manner, portraits can be reproduced on porcelain wares or Vases of every quality of finish, ranging in price from $20 to $100 the pair.
N. B.—Be particular in writing the address, town, county, and State distinctly.
All letters to be addressed to "Manager, American Photographic Porcelain Co., 781 Broadway, New York." nov1-3m

Dr. Pomeroy, Surgeon Dentist of the Philadelphia Police and Fire Departments, Cures Rheumatism!!! It seems to be the general opinion in Clearfield, that if Dr. Pomeroy had worn a pair of Frank Short's French calf Boots, that he would not be taken yet. However, Shorty is not much put out at missing his custom; but would announce to all *Democrats, Douglas, Lincoln and Bell* men, and women and children in Clearfield and Shippenshoning in particular, that he is prepared to furnish them with boots, Shoes and Gaiters of any style or pattern, stitched, sewed or pegged, and so he is a short fellow on short notice.
All kinds of country produce taken in exchange, and cash not refused. Repairing done in the neatest manner and charges moderate, at the Short Shoe Shop on Second Street, opposite Reed, Weaver & Co's store. FRANK SHORT.
