SALT LICK, Pa., Dec. 14th, 1860. MESSRS. EDITORS: The Regimental Journal of the 5th of Dec., last, contains an editorial relating to that "strange affair."

In which, after having given Mr. Moore himself as his informant, he indulges in language reflecting upon the character of your correspondent A., which is about as improper as his publication of the "strange affair." Your correspondent A., is not contenting for the stranger or any other man if his conduct be bad. He intended nothing more in his statement of the fact contained in his communication, as relating to the stranger I about than the manner of the publication as it appeared in the Journal. If the good of society be benefited by improprieties, the teachings and experience of your correspondent A., has all been wrong. Yours, &c. A.

NOVELTY IN THE ART WORLD! PHOTOGRAPHY UPON PORCELAIN.

Secured by letters patent in the United States, England, France and Belgium. The American Photographic Porcelain Company, No. 781 Broadway, New York, having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for Miniature Likenesses of Persons on China, presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a hitherto unattained quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity, portraits can be reproduced with faultless accuracy and delicacy of delineation, upon Porcelain wares of any description and dimension used as articles of luxury or of household utility, such as Urns, Vases, Breakfast Cups, Toilet Articles, &c.; thereby securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the art desirous of having portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured by their own order, which they will sell at cost prices.

As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to afford people in every section of the Union an opportunity to possess portraits on China, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and Galleries in New York: Persons sending a photograph, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by \$5, will receive in return by express, free of charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerreotype and \$10, they will receive in like manner a handsome French Vase or Toilet Article, with the portrait reproduced by the patented process.

By sending a pair of daguerreotypes and \$15, they will receive in return a pair of rich Sevres Vases, with the portraits executed equal to miniature paintings; and, in like manner, portraits can be reproduced on porcelain wares or Vases of every quality of finish, ranging in price from \$20 to \$1000 per pair.

N. B.—Be particular in writing the address, town, county, and State distinctly. All letters to be addressed to "Manager, American Photographic Porcelain Co., 781 Broadway, New York." nov-17-60
