REMEMBER, Strangers or Scoundrels or Reflections are the curse, the blight of mankind. They are vile and filthy, as well as fatal. They arise from impurity and contaminations of the blood, and are to be seen all around us everywhere. Thousands daily are consigned to the grave from the direful effects of this disease. But why trifle any longer when the remedy is at hand? **DR. LINDSEY'S BLOOD SEARCHER**, the only effectual preparation new before the people, that does its work mildly and safely. It does not close the issue superficially, while "Foul corruption mining all within, Infects unseen."

But purges the entire system of all impure Matter, invigorates the body, and leaves the Afflicted in the enjoyment of good health. To convince the skeptical of its healthy effects, try but one bottle, and be convinced. Sold by all Druggists in this place, and dealers throughout the country, nov21-1m

A NOVELTY IN THE ART WORLD!!—

PHOTOGRAPHY UPON PORCELAIN.
Secured by letter patent in the United States, England, France and Belgium.

The American Photographic Porcelain Company, No. 781 Broadway, New York, having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for

Miniature Likenesses of Persons on China, presenting all the attractive and advanced features of ordinary photography, and the brilliancy and finish of a water-color drawing, and a bit of unattained quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity, portraits can be reproduced with facility, accuracy and delicacy of delineation, upon Porcelain ware of any description, and dimension used as articles of luxury or of household utility, such as Urns, Vases, Breakfast Cups, Toilet Articles, &c., thereby securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the fine arts desirous of having portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they will sell at cost prices.

As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to afford people possess portraits of the Union an opportunity to have them made on China, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and Galleries in New York:

Persons sending a photograph, ambrotype, or daguerrotype to the office of the Company in New York, accompanied by \$5, will receive in return by express, free of charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerrotype and \$10, they will receive in like manner a handsome French Vase or Toilet Article, with the portrait reproduced by the patented process.
