Car Time at Tyrone.

The winter arrangement of the Pennsylvania railroad, on and after the 26th instant, will be as follows:

TRAIN LEAVING EASTWARD.	
Fast Line	8.30 a.m.
Mail Train	12.10 p.m.
Express Passenger	10.13 p.m.
TRAIN LEAVING WESTWARD.	7.42 a.m.
Express Passenger	12.38 p.m.
Mail Train	8.22 p.m.
Fast Line	No trains run on Sunday except the Express.

We call the attention of our Mercantile community to the Mercantile Appraiser's list, in another column, which they may find of some interest to themselves.

NORTH-EASTER.—For the last three days we have had a steady, cold, damp, chilling "blow" from the North-east. On Sunday last rain fell steadily, but very slowly, all day.

Our young friend James E. Watson, has broken out in a new place. Having purchased the stock of Edward Williams, at Woodland, he is now willing to attend to all that may call upon him. "Jim" is a clever fellow, and deserves the patronage of our Woodland friends. See his card in another column.

RAPING.—Our lumbermen have been making a desperate effort to get their lumber off. Several rafts left this yesterday and day before, some of which, we learn, were "tied up" for want of water, whilst a very few have not yet been heard from, and are supposed to have escaped through the mountains. A little more water is much needed.

Quite a large number of the best quality of saw-logs from Anderson's creek have passed this pace.

He remembered the forgotten was beautifully said of Howard the philanthropist. It also applies to every man who brings the ameliorations, comforts and enjoyments of life within the reach of persons and classes who are otherwise deprived of their advantages. Especially may it be said of him who laboriously seeks and finds new means of preserving health, "the poor man's capital and the rich man's power." We think this eloquent properly applied to J. C. Ayer, of Lowell, the renowned chemist of New England, who, sprung from the trodden paths of fame, dedicates his entire abilities and requirements to the study of Nature's most effectual remedies for disease. When the hidden blessing has been revealed, he proceeds to supply it to all mankind alike, through our drugists at such low prices that poor and rich may alike enjoy its benefits.—*Journal and Enquirer*, Portland, Maine.

The Jersey Shore Boom Bill has been very unexpectedly defeated in the Senate, by a vote of yeas 40—nays 26.—The bill had previously passed the House, 63 to 23, and it was supposed it would meet with similar favor in the Senate. What argument was used to convince the Senate so perfectly unanimous against the decision of the House, we are not informed; but if the people of Jersey Shore, who say they have evidence enough to convict the whole Senate of bribery, are to be credited, the arguments were of the most weighty character. If so, the Williamsporters have only accomplished what the Jersey Shoreites have been laboring all winter to accomplish. What a squalor is often made when rogues fall out with one another.

WILD PIGEONS—A large number of these annual visitors have already made their appearance in this quarter.

The Convention of South Carolina adopted the permanent Constitution of the Confederate States of America, on the 5th inst., by the following vote:

Whole number of members, 172
For the Constitution, 146
Against the Constitution, 16
Absent, 10

Florida, we believe, is the only one of the Seven Confederate States that has yet to adopt the Constitution.

The Worst Commercial Revision of the Age Coming On.—From all the indications which can be gathered from the proceedings now going on at Washington, it is more than probable that the administration are about to plunge the country into the horrors of civil war; and if such should be the unhappy result of their blind policy, we are at this moment on the eve of a calamity more terrible than any that has yet befallen a nation—more disastrous than the French Revolution, or any of the old revolutions in England. With all the appliances of our modern civilization—the telegraphs, and railroads, and steamship agencies—a war between the North and the South would be the bloodiest ever known, and its termination could not be predicted upon any reasonable grounds until after several years of conflict. Meantime the commerce of the country would go to ruin; values of every kind would deprecate; property especially in the Atlantic cities, would diminish from forty to fifty per cent.; the manufacturing and shipping interests, except in the construction of engines of war and in privateering, would of course be utterly demolished; and yet we seem to be rapidly drifting towards this state of things. Therefore it behoves all those who own property, in real estate, or money, or in any other shape, to look ahead and prepare for the storm that is gathering.—*Herald*.

A letter from Sherrard Clemens says that Virginia is certain to secede on the re-assembling of the Convention.

Hon. John C. Breckinridge arrived at his home in Lexington, on the 30th ult.

HORRIBLE AFFAIR.—A Woman Killed by a Dog.—On the 28th ult., an old lady named Mrs. Davis, residing in Ross township, Allegheny county, Pa., was found lying by her bedside in a dying condition, her left leg having been horribly mangled by her own dog, as was supposed. The flesh, from the knee to the ankle, had been literally torn up and eaten off, as it could nowhere be found in the room. The lady was badly scathed over the bowels and thighs, as if by the nails of a dog. The old lady was raised and placed in bed, where she existed in about two hours. It rarely happens, says the Pittsburgh *Gazette*, that a dog will attack and wound his master or keeper; but two instances have come under our observation in which the owners of dogs have been attacked and almost killed.
