This Machine is much admired for its simplicity, and for its reliability and durability it is un-surpassed. A child twelve years can run it with case; and yet it will see from the coarsest cloth to the finest Swiss. There is no trouble of re-winding the thread, as it is taken from the spools. If has no belts to give trouble, and will run backwards as well as forwards, and still sews equally perfect, and without danger of breaking needles. It runs by friction, and by closing the box over it, it is thrown out of gear. In fact, we have no hesitation in recommending it as the best family Sewing Machine in use.
