THE ARMY WORM—WHAT IT IS DOING—HOW IT WORKS.

The army worm is committing a great deal of depredation upon the grass in Missouri. It is a caterpillar, which especially loves timothy, and will strip off a field of this grass in short order. The St. Louis *Republican* says:

Their numbers seem at present to diminish, not because they die off, as many suppose, but because their time has come to be changed into the chrysalis state as pupæ. For that purpose this caterpillar hides itself superficially under the ground, and lies there for a while in a torpid, contracted state, until it is transformed into a small brownish pupæ, from which in a couple of weeks a butterfly will be developed, a dark brownish moth. This moth employs its short life in laying numerous eggs on and below the ground, to preserve the noble race of the grass caterpillars for the next spring, which the young army worms will, as if by magic, come forth in a new generation. From the millions of eggs which the moth will lay this summer, it is feared by some that we may be overrun next spring by a still larger levy of the army worm. But this is by no means certain. Experience on the contrary, has proved that such a year of warfare upon our fields is generally followed by a peace of many years, since it requires peculiar climatic influences to develop these insects so freely.

Their developement is mostly favored by a dry and warm summer, followed by a mild winter. In such years, two generations of these insects will sometimes be procreated in one year; at any rate, they thrive better, and millions of eggs that otherwise would perish are preserved in such yesrs.—The insect, with its regular transformation from the egg into the caterpillars, the pupæ and the butterfly or moth, exists always, but in some years they are nearly killed off; in others they are preserved and kept by climatic influences. Such influences favorable to their preservation existed last year and this spring. After a warm and dry summer and a mild winter, we had a fine spring, with gradual development of heat and frequent warm rains, influences that not only aid vegetation, but also the existence of insects and lower animals genarally. But since the exact repetition of such a climatic year is not very likely, it is also unlikely that the State of Missouri will have to suffer another year's warfare of that worm. However, the insect is on or just below the ground, the free use of the plow over such ground must certainly be useful.—Digging ditches around, and driving hogs and fowls into the meadows, etc. no doubt produses some good effect, but in case a timothy field were invaded, I would, after digging ditches, mow it down at once, in expectation of seeing the army move off for fresh food or die.

THE COMING HARVESTS.—The indications are that large harvests will reward the labors of the husbandmen. From all parts of the Union we have the most gratifying intelligence in relation to the growing crops. The wheat harvest in Maryland is about to commence, with flattering prospects of a fine yield. Of the country generally, a cotemporary remarks:

Throughout the West: and in the great grain growing States between the Ohio river and the lakes, fears are occasionally expressed that the ravager of the army werm and the other natural foes of the farmer, will materially depreciate the quantity and quantity of some of the harvests.—Hopes are, however, freely entertained that this evil will not be so great as is at present apprehended.

In the Confederate States, as we learn from the latest newspapers received, the prospects of an abundant yield are flattering. The farmers of Middle Tennessee have been unfortunate the last two years with their wheat, but now they expect to raise enough to compensate them for any losses they may have sustained.—Fruit and vegetables are found everywhere in great profusion. The people of Alabama have twice the number of acres in wheat that were ever planted in a single year before, and in many counties the calculation is that the crop will average from twenty-five to thirty bushels of corn to the acre.—From Mississippi we hear the same tidings, everything indicating a great harvest. In anticipation of hostilities most of the Southern farmers have doubled their usual crops of corn, and as the crop bids fair to be a good one, the yield of that staple must be immense. A Memphis journal, speculating on this record, thinks that with the wheat and rice crops, and with the fine prospects for corn, the people of the Southern States will have breadstuffs enough ta last for two years, and that flour will not be more than six dollars per barrel when the growing crop is brought into market.

BROWN BREAD.—One quart rye meal; two quarts Indian meal; two tablespoonfuls of molasses; mix thoroughly with sweet milk; let it stand one hour, then bake in a slow oven.

☞The crops throughout the United States never looked better. Had it not been for the present war, no country would have been richer.

The army worm is making sad havoc with the crops South and West.

PARRIS' IMPROVED

SEWING MACHINE.

PRICES FROM $40 to $70.

The BOUDOIR SEWING MACHINE, an engraving of which is here represented, has now become a recognized favorite wherever it has been introduced, and is, beyond question, the best, as well as the handsomest, low-priced Sewing Machine now before the public.

No. 1.—A small and very neat Machine for Family use.

No 2.—A large Machine for quilting heavy work and for Plantation use.

This Machine is much admired for its simplicity, and for its reliability and durability it is unsurpassed. A child twelve years can run it with ease: and yet it will sew from the coarsest cloth to the finest Swiss. There is no trouble of rewinding the thread, as it is taken from the spools. It has no belts to give trouble, and will run backwards as well as forwards, and still sews equally perfect, and without danger of breaking needles. It runs by friction, and by closing the box over it, it is thrown out of gear. In fact, we have no hesitation in recommending it as the best family Sewing Machine in use.

The following Premiums Awarded the above Machine:

At the Fair of the Franklin Institute, 1858, the First Premium.

At the Pennsylvania State Fair, at Philadelphia, September 24, 1859, the First Premium—a Diploma.

At the Pennsylvania State Fair, held at Wyoming, 1860—a Silver Medal.

For the best Double Thread Machine, at Lancaster County Fair, held October, 1859—a Silver Medal.

At the Maryland State Fair, held at the Maryland Institute, Baltimore, Md., October, 1859, under strong competition, a Silver Medal was awarded to this Machine.

At the New Castle County Fair, held at Wilmington, Delaware, October, 1859—a Diploma.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 18[illegible]

J. C. AYER & Co, Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it breaks out in Ulcers on my hands and arms; sometimes it turns inward and distresses me at the stomach. Two years ago it broke out on my head and covered me with scabs and sores, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your card that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful a month, and used almost three bottles. Now and then a skin soon began to form under the scab, which would fall off. My skin is now clear, and I know by my feelings that the disease has gone from my system. I can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the perseverring use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* in large doses of the same; and he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had endured for over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agents, saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Disease* of the Scrofulous diathesis. I have cured many intricate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *cancerous tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 18[illegible]

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believed the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 18[illegible]

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAR.

Jules Y. Getchell of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Eggleston, urged me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these diseases, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
