

**BATTLE OF "COWS" RUN.**—We had hoped to be able to lay before our readers the full particulars, with proper maps, diagrams, &c., of an engagement that took place on the "Huckleberry farm," at a spot named "Cows Run," about 7 miles west of this place, between a party from Jefferson county, and a party from this county, but our limited space will not permit us that pleasure, and we must therefore confine ourselves to a very brief summary of the copious account furnished by our "special reporter," who witnessed all that occurred.

It seems that one day last week a party went from the Grampan Hills to the "farm," to pick berries. This party was composed of about an equal number of Democrats and Republicans. They took with them a flag, which had been suspended at the shop of our excellent Republican friend, John Russell, (who was one of the party,) exposed to the weather all summer, in which the bleaching rain and scalding sun had played sad havoc with the original luster of its "stars and stripes." Arrived at the ground, this sacred emblem of "union for the sake of the Union," was unfurled to the breeze in front of the camp. Soon afterwards, a company from Pennsylvania made their appearance, who, upon seeing the above described flag, and either imagining that they had reached the land of Dixy, or believing the lying stories that Clearfield is full of secessionists, swore it was a secession banner, and forthwith attempted to tear it down. This resulted in a sharp scuffle, resulting in some bruises, and the repulse of the assailants. When actual hostilities ceased, a war of words was kept up for some time, the character of the suspicious-looking flag explained, and general party politics introduced, in which several very significant remarks were made; one gentleman remarking "that although he had been the widest-awake among the Wide-Awakes last fall, the acts of the Republican party had already taken all the wool off one side of his face!" He was at once set down as a "secesher."

Before the Punkeys returned to their camp, however, they declared that they had not come to pick huckleberries, but to hang the d---d secessionists and traitors of Clearfield. It was not long until their quarters were visited by a party of Clearfield boys, two of whom advanced and told the Punkeys that if they had come upon a hanging expedition here was a chance to begin. This opened the ball, and it is said that for a few minutes the "play" of our boys would have done honor to the "ring," and when it was over the boastful, bullying hangers were very glad to escape with sound bones.

Both parties retired to their respective camps for the night. Next morning, the Punkeys, having been strengthened by a large re-inforcement, appeared before the camp of the Clearfield boys at an early hour. Several Heenans and Hyers were selected from each party, a ring formed, and every preparation made for a regular "pitch in," when our friend, Eli Bloom, Esq.,—whose reputation, perhaps, had gone before him!—and a couple of others from another camp, happened to make their appearance. They demanded an immediate cessation of hostilities, at the same time stating the consequences of a refusal, when the Punkeys, after a careful measurement of the muscular developments of these peace-makers, concluded that discretion was the better part of valor, that they had better postpone the hanging match and go to picking berries, contented with the dressing they had already received rather than run the risk of getting a worse one.

**THE CHEMISTRY OF MEDICINE.**—Among the special delights which have so richly repaid our visit to New England was the inspection, it was our privilege to make of Dr. J. C. Ayer & Co's. Laboratory at Lowell. Although we know by hearsay that it was large, yet we were surprised when we came into view of its real magnitude, and still more by the extent and complication of its truly immense business. The whole massive structure is in fact one vast chemical laboratory, in which the processes of the wonderful art are constantly going on. Medico-chemical science has found that the curative properties of any substance exist in some one or more of its component parts. Thus the remedial effects of opium are due solely to the morphia it contains, although this is but one-eighteenth part of its weight; the other seventeen parts are gum, extractive and inert or offensive matter. Dr. Ayer's system separates the medical properties of each substance employed and we are here shown the processes by which the virtues of each remedial agent are chased through the alchemies until they come out completely pure at last. These concentrated, purified medicinal properties, or virtues, are finally combined together to produce the remedies which have made themselves an unrivalled excellence, all over the world. Not only does the doctor disclaim all secrecy in his art and explain every process and every particular, but he maintains that this is the only process by which the people can be supplied with the best possible remedies for the treatment of disease.—The Formula by which his remedies are made are published in the medical Journals and have been presented to a large part of the medical Faculty of the United States, and are constantly sent by mail to such physicians as apply for them.—Daily Chronicle, San Francisco.

**PEACE MEETING.**—A meeting in favor of Peace was held on the 6th instant, at Cherry Ridge, Wayne county, Pa., which is said to have been quite a success. Similar meetings are becoming quite numerous throughout some parts of New York, New Jersey, and the Eastern States.—Why is it that the people of other places can take action in favor of peace, whilst to do so in Clearfield is to be called a secessionist, traitor, &c, by such disciples of John Brown as the Pittsburgh Dispatch?

Among the Republican candidates announced for nomination in this county, I perceive the names of not less than eight renegade democrats, and among those not less than five who were honored with office by the Democratic party, and held such offices some 5, 3 and 2 years, &c. Our Republican neighbors must be expected to perceive those merits of these disinterested converts to their cause which the blindness of the Democrats had failed any longer to appreciate, as they are willing to make the sacrifice of serving their country a while longer in official stations.

**Washington Items.**  
WASHINGTON, Aug. 8.—It appears from the data of the committee of ways and means, that the total amount of appropriations passed at the recent session is \$275,000,000. Of this amount \$197,000,000 is for the army, and \$35,050,000 for the navy, and the remainder for various other purposes.  
One of the regiments of the Sickles brigade was reviewed by the President this morning. Their physical endurance was great, a few only being obliged to retire from the ranks on the march through the intense heat, the thermometer being one hundred and twenty in the sun!  
It is understood that Col. Sickles will be appointed a Brigadier General by the President.

There was considerable alarm among our troops in the neighborhood of Great Falls on Tuesday night, which subsided on ascertaining that there was nothing more serious than the shooting of one of our pickets in the foot by a concealed rebel on the opposite side of the canal.  
Letters have just been received here, one dated on the 2d and the other on the 25th of July, from Capt. Worthington, of the First Michigan regiment. It is stated that he was not wounded at the Bull Run battle, but was taken prisoner while attempting to assist Col. Wilcox off the field. Col. Wilcox's arm is badly shattered.—Captain Ricketts is also wounded. Dr. Louis, of the Third Wisconsin regiments, is in attendance, and Mrs. Ricketts is with her husband.  
Capt. Worthington writes that they are treated with great kindness. They are all in their parole of honor not to escape or take up arms against the South. These parties are now, probably in Richmond, as the wounded were to be removed thither as soon as circumstances would permit.

**Active Army Movements at Washington.**—The blockade soon to be more thoroughly enforced.  
WASHINGTON, Aug. 9.—The activity among the government teamsters is as great as at any time previous to the late battle. Provisions and other supplies in immense quantities are hauled to the various camps both in and out of the city. In this connection it may be stated that much more regard than heretofore is paid to the comfort and subsistence of the soldiers, and as a consequence but little if any complaint now exists among the troops.  
Additional troops continue to arrive here from time to time, including of late a large proportion of cavalry; they are judiciously distributed along our extended Potomac lines. The movement of troops during the night instead of the heat of the day, is certainly an improvement over their improper exposure to the sun's rays during this severe weather.  
Many of those recently appointed to military office are waiting patiently for their commissions. The War Department is daily thronged with their already uniformed.  
The Southern newspapers will not much longer be able to exult over the inefficiency of the blockade in localities which might here be specified. The Navy department in possession of the ample powers recently conferred by Congress is expeditiously completing arrangements applicable to all such cases.

**Affairs Across the Potomac.**  
WASHINGTON, Aug. 9.—A company sent out last night by Col. McCann to relieve his pickets beyond Alexandria, fell in with a body of secessionists, when shots were briskly exchanged between them, killing two men, but on which side the colonel did not state when to-day he mentioned the occurrence to some friends in Washington. He sent reinforcements to the relief of our pickets, when the enemy fled.  
Our troops on the Virginia side are more vigilant than heretofore against any possible surprises.  
**Ohio Politics.**—At the election for justice of the peace, held in Columbus, Ohio, on the 5th instant, the democratic candidate was elected by a majority of 346, out of a total of 2,052 votes polled. The Statesman says:  
"When Mr. Kronenbitter was nominated, the yelpers commenced their howl that he was a secessionist, as they choose to do when any democrat is nominated. But it recoiled among the authors, as it will continue to do. Men will learn before long that democrats are not to be howled down by the cry of secession."

A company of Zouaves has been formed at Centerville, Md., with T. C. Haughey as captain.  
During the ten weeks preceding July 1st, one hundred and seventy public concerts were given in London.  
John Dellinger & Co., of Lancaster, Pa., have received a contract for making 20,000 flannel shirts for the volunteers.  
Gen. Wool has not been ordered to Fortress Monroe or any other point of active war operations, as reported.  
Captain Andrew A. Harwood has been appointed Chief of Bureau of Ordnance and Hydrography, vice Magruder.

A movement is making for the erection of a monument to Stephen A. Douglas in Brandon, Vt., his native town.  
The New Haven Journal says that the 2d Connecticut regiment brought home with them twenty-five negroes from Virginia.

**The Cheapest Weekly Paper Printed**  
**The Weekly Day-Book.**  
The Proprietors of the NEW-YORK WEEKLY DAY-BOOK have resolved, during the present financial and business prostration, to offer their paper on the most liberal terms, and in order to place it within the reach of every person who desires it, will send it for ONE DOLLAR per annum to single Subscribers. The DAY-BOOK stands where it has always stood, upon the Constitution of the United States, as interpreted by its authorized exponent, the Supreme Court, not only because it is law, but also because it is right and just. The refusal of the Republican party to abide by that decision has been the parent of all our troubles; but with unbounded confidence in the honesty of the People, however much they may be temporarily misled, we shall continue in the future, as in the past, to contend that this is a government of WHITE MEN—that inferiority of legal and social position for the negro is his proper one, and that all CITIZENS are entitled to equal rights, and to equal protection of their property of whatever kind. As the adoption of these principles will PRESERVE THE UNION, and as CIVIL WAR will necessarily destroy it, we shall labor by comment, them to the minds and consciences of the people with whatever ability we may possess.
