

ARTICLE I.—Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; OR ABRIDGING THE FREEDOM OF SPEECH, OR OF THE PRESS; or the right of the people peaceably to assemble and to petition the Government for a redress of grievances.—Constitution of the United States.

Car Time at Tyrone. The winter arrangement of the Pennsylvania railroad, on and after the 1st of Nov. v. will be as follows:

Table with 2 columns: TRAINS LEAVING EASTWARD, TRAINS LEAVING WESTWARD. Lists times for various routes like Tyrone to Philadelphia and Tyrone to Harrisburg.

See advertisement of Dr. Hurd's Mouth Wash, Tooth Powder, &c.

Special attention is directed to the advertisement of J. P. Kratzer, in this week's paper. By referring to the market reports, it will be seen that he sells goods as cheap as the cheapest.

First Snow.—Sunday and Monday last gave fair promise of hiding our mud with a fleece of snow; but the dispersing of the clouds, and a change of atmosphere on Tuesday, only made matters worse.

Sheriff Miller informs us that some body has borrowed his bridle. The Sheriff would like to borrow it back again for a short time, as he wishes to use it.

Game.—Our forests are filled with hunters. Deer are said to be very numerous, and in fine condition. But we are not disposed to take other men's word upon a subject of such importance, and intend to make a personal investigation of the fact.

Several of our Philadelphia exchanges complain bitterly that the City is out of school teachers, and is unable to pay its school teachers, and if funds are not furnished soon the schools must be closed.

We can inform our contemporaries that there are other School Districts in the same City, and we can give no other reason for their than that of the "blockade," and which is growing more effective every day.

ASSEMBLY—OFFICIAL RETURNS. The following is the official vote for members of the Legislature in this district, including the vote of the Volunteers.

Table with 2 columns: Name and Vote. Lists candidates like Jefferson, Elk, McKean and their respective vote counts.

The Canadian press, without an exception it is believed, denounces the arrest of Messrs. Mason and Slidell on board a British vessel as an insult and outrage on the British Government which can only be atoned by their "restoration."

PETERSON'S MAGAZINE.—We are in receipt of this popular Lady's Magazine for December. It is a splendid number.—The title page for 1861 is the handsomest we ever saw.

NEW ADVERTISEMENTS. J. P. Kratzer has just received a general assortment of Fall and Winter clothing.

New York City News.

Who are Secessionists? The New York Tribune is the organ of the Republican party—the Libby which they swear. The other day we changed by accident to observe a remark in its editorial columns which looks to us considerably more candid than "considerate. It was this:

"It is by no means the specific duty nor the special interests of Republicans to maintain the Union."

And the reason given for this frightful specimen of indifference in regard to the integrity of the nation by a journal that is daily branding somebody or other as a "traitor" who is more patriotic than it is itself, is thus expressed:

"With the slave States in the Union, the Democrats will probably rule three terms out of four; let Secession become a fixed fact, and their chances of ascendancy will be materially lessened!"

We do not accept the doctrine of the Tribune for those of the entire Republican party, but we really believe that the ultra and zealous wing of it, which is by far the largest, accept and approve such heresy. What a shockingly selfish and narrow conception of honest patriotism the individual must entertain whose affection for his party surpasses his love for his country!

ACTS SPEAK LOUDER THAN WORDS.—On the 1st of February, 1840, Senator John P. Hale of New Hampshire, presented two petitions from Isaac Jefferson and other citizens of Pennsylvania, and J. F. Woodward and others, praying that "some plan might be devised for the dissolution of the American Union." Mr. Webster, of Massachusetts, was unsparring in his denunciation of the petitions, and suggested that there should have been a preamble to them in these words:

"Gentlemen, members of Congress! Whereas, at the commencement of this session, you and each of you, took your solemn oaths, in the presence of God and the Holy Evangelists, that you would support the Constitution of the United States; now, therefore we pray you to take immediate steps to break up the Union, and overthrow the Constitution as soon as you can."

Yet this petition received three votes, John P. Hale, of New Hampshire, William H. Seward, of New York, and Salmon P. Chase, of Ohio. The last two are Cabinet officers. (See Senate Journal, 1st session 31st Congress, page 129.)

The duties paid at the New York Custom-house, in the last ten months, amount to only \$17,528,000, against \$33,000,000 for the corresponding ten months of last year. This is just about enough money to "run the machine" on the Republican platform for ten days. The Democracy used to be terribly abused for expending this much in four or five months.

VULCANITE BASE FOR Artificial Teeth! ATTENTION is especially called to this article as a substitute for Gold in inserting Artificial Teeth.

Many persons who have tried all kinds of Metallic Bases PREFER this. And those cases where it is applicable it will undoubtedly become a substitute for Gold, Silver or Platinum.

Its chief advantages are cheapness, lightness and perfect adaptability to the mouth, it having a soft and fleshy feel to the parts with which it comes in contact.

A. M. HILLS is prepared to put up teeth on the Vulcanite Base with Gooden's Patent Gum, which is the only reliable preparation and which can only be had through their regular agencies.

As there are very many kinds of artificial Gums in use which are of a very inferior quality, it would be well for persons desirous of procuring teeth on the Vulcanite Base, to be well acquainted with the moral responsibility of the dentist they employ.

Persons desiring teeth will do well to call and examine specimens both in and out of the mouth. Dr. Hills will always be in his office on Fridays and Saturdays, unless notified to the contrary appears in the public papers on the previous week.

nov. 20th 1861-62. A. M. HILLS.

SEWING MACHINES. WILCOX & MACCLES. Price with Benner and Felser, \$35 00.

THIS MACHINE HAS A POINT OF CUTTING PLUGGERS CUTTING ITS OWN.

Stitching, Hemming, and Felling with a Single Thread.

It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also under all circumstances "no matter how worn."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

Another feature which deserves particular attention is THE WILCOX PATENT NEEDLE CANNOT BE SET WRONG.

Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch.

These machines, so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machine; and more, for these will without hindering them the finest needle without packing.

Although at about half the price of the other first class machines, they will accomplish double the sewing in the same time, and as the Family Sewing Machine that the public have long been waiting for.—Boston Transcript.

It is indeed a world's production, and for family use especially, no other will bear any comparison with it.—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most scientific Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Boston Transcript.

"This machine, in the opinion of the competent, fills more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability, and doing all work, the result was unanimously in favor of the Wilcox & Gibbs single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in providing, beyond doubt, that two threads are not, as was supposed, necessary to a good result."—Christian Advocate and Freeman, June 24, 1859.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after some six weeks experience with Wilcox & Gibbs' Patent, he has purchased one of them as the best adapted to the wants of his family, and as the best value to require repair. OLIVER CHANE, Boston, July 3, 1859.

The undersigned, during eighteen months, has had in almost constant use, in his family, Wilcox & Gibbs Sewing Machine, upon which he has been able to do all his sewing, from muslin to flannel, including the clothing required for his several boys, and as he has never had the means failed, although in hard work, he has machine now in use in his family has required no repair, and is in all respects, well appointed, efficient and durable.
