A HUNTER TAKEN SHORT.—We thought our Clearfield hunters were wide awake for all kinds of game, but it seems we were mistaken. A few nights ago, a friend of ours having a taste for fresh venison, (as he has got it we think the printer should have been remembered) concluded to take his station in the forks of a hemlock tree making a "deer lick." He had not occupied his position long before a stately buck made his appearance, looking as though he would like to receive a shot behind the fore-shoulder.

SEWING & GIBBS. WILCOX & GIBBS' MACHINES. It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also the "A" Patent device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

Price with Hammer and Feller, \$35 00. THIS MACHINE HAS A POINT OF SUPERIORITY FEELICARLY ITS OWN.

Stitching, Hemming, and Felling with a Single Thread. It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also the "A" Patent device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

These machines, so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for those fell without having and hem the dress without puckering.

At about half the price of the other first class machines, they will accomplish double the sewing in a given time. "It is essentially the good, low-priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

It is indeed a wonderful production, and for family use especially, no other will wear any comparison with it.—"Philadelphia Evening Journal."

"A mechanical wonder."—Scientific American. "Among the best and most serviceable Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Penny Magazine. "This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability, and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report. "We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in providing beyond doubt, that two threads are not, as was supposed, necessary to a good seam."—Christian Advocate and Journal, June 21, 1861.

"We have confidence in the merits of the Wilcox & Gibbs Sewing Machine in use, and think more highly of it than of any of the number we have tried."—Richmond Whig. "The undersigned, of long experience in the business of Sewing Machines, and with six weeks experience with Wilcox & Gibbs' Patent, he has purchased one of them, as the best adapted to the wants of his family, and as the least liable to require repair."—OLIVER CRANE, Boston, July 3, 1860.
