WANTED.—The Printers want WOOD and COAL, to keep them from freezing. WHEAT, CORN, RYE, BUCKWHEAT, OATS, and MEAT, as an antidote for starvation, and a little CHANGE mixed with them, to enable us to buy clothes for our children.

THE WEATHER.—For the last week we have been favored with most delightful weather, and were it not for the intollerable mud it would be preferable to summer. The chances are that we will be paid for this sometime between this and the first of May next.

Good News.—We learn that the cars will commence conveying the mails and passengers to and from Sandy Ridge tomorrow. This will reduce the stage route between this and Tyrone some 13 miles, and the time from two to three hours.

Nice Beef.—Our friend John J. Reed is in the habit of killing a good Beef every fall. The way he does it is this: He takes good cattle, selects his stock, usually of the Lavonshire breed, takes good care of them, and feeds well. He killed a Beef three years old, last week, that weighed, when dressed, 936 pounds.

THE FINAL BLOW TO BE STRUCK! The special Washington correspondent of the New York Tribune—understood to be Mr. Greeley himself—sends the following dispatch, under date of the 5th inst: "No intelligent man could have gone out of the Senate Chamber this morning without the conviction that the 'CONSTITUTION' had SILENTLY PROCLAIMED THE DOOM OF SLAVERY IN THIS CONTINENT. AN ACT OF CONGRESS WILL UNQUESTIONABLY STRIKE THE SHACKLES OFF THE AFRICANS IN EVERY STATE OF THE UNION BEFORE THE NEXT ANNIVERSARY OF WASHINGTON'S BIRTHDAY."

Our people can now prepare for the happy consummation of the thirty years' labor of the Abolitionists. Our farmers can hire those freed darkies for their feed, and laboring men can turn their talents to other pursuits. There is evidently a good time coming."

But then, Mr. Greeley has often been mistaken, and may luckily be mistaken in this instance. Besides this, Congress may pass such a law and still the devilish work may be consummated, but arrested by a veto from the President chosen by the votes of these bold bad men. So there is a small glimmer of hope for the country.

The election of Mayor for the city of New York took place on the 3d inst., and resulted in the election of George Opdyke, the republican candidate. The Democrats were foolish enough to run two candidates, the Tammany faction supporting C. G. Gunther, and the Mozart wing supporting Fernando Wood, the present incumbent. The following is the vote: Opdyke, republican, 25,451; Gunther, Tam dem., 24,644; Wood, Mozart dem., 23,350.

The Democrats have, however, secured a majority in the Board of Aldermen and also in the Common Councils, without the cooperation of which bodies the Mayor has but little power.

ARRAIGNS IN CHARLESTON AND RICHMOND.—A correspondent of the Boston Traveler, writing from Fortress Monroe on Monday, says: "I have had a long conversation with a gentleman who left Charleston last Friday, and he assures me that the people of the South are much deceived about the true state of affairs at the South, if he can judge from the tone of northern papers which he has been enabled to peruse. He has been a resident of Charleston the last two years, and is in every way entitled to confidence. Our forces had not occupied Charleston when he left, and the southern Confederates greatly outnumber our troops, and this, notwithstanding that they have received no reinforcements of any kind since our company only had returned to the city. But one feeling and determination animated the whole people.—The provisions were cheap, and so was the flour. Flour was falling in price tho' still there was no suffering among the poor of the city, as they were finding ample employment in manufacturing articles for export procured from the North."

At Richmond are said to be very active in the meeting of the Confederate Congress imparting a good deal of animation to everything, and a great deal of gaiety to the capital. To illustrate a young lady, just returned by a flag of truce, remarked to me on some nice times, I didn't want to leave."

The man who was lost in slumber and had found his way out again on Saturday.

How it Works. The Washington, Pa., Review, has the following: "We learn from a reliable source that a number of our simon-pure Abolition farmers have now in their employ contractors from 'Dixie,' imported since the war commenced—for the labor of which they pay five dollars per month. We also learn that some of these enterprising farmers are making a move to get a larger supply of this article so as to reduce farming expenses. As the number increases the price of labor will go down. Such is one of the effects of confiscating negroes."

This is but the beginning of the end.—And if the beginning has the effect of reducing the wages of labor to \$5 a month, how low is it likely to be at the end? There are now only a few hundred of these "contrabands" escaped to the free States, and at once they supply the place of white laborers at the rate of about twenty cents per day. At the same ratio, what will be the compensation of labor when their number is increased to millions?

But the President talks of colonizing them. As well might he undertake to empty Lake Erie with a spoon. If all our ships were engaged, they would be unable to transport even the natural increase.

The New York Tribune, in an effort to be very funny and very satirical against conservative men who hate abolitionists, tells the truth so accurately and so masterly that we place its language before our readers: "An 'abolitionist' is also an infidel, an agrarian, a foe of human government, a doper of his conscience, a woman's rights man, an anti-Sabbatarian, a 'spiritualist,' a phrenologist, a water curer, a vegetarian, a Fourierite, and an opponent of tobacco and capital punishment. All male abolitionists wear beards. All female abolitionists are 'Bloomers.' All of them, being tainted by 'peace principles,' are avowedly in favor of insurrection, with fire, bloodshed, rape, anarchy, and a general wint of everything."

There never was a better picture drawn of an Abolitionist than this. It is a life-like portrait of the animal, and nobody is more competent to draw a picture of this kind than Mr. Greeley, because he need only draw a likeness of himself in order to produce a perfect Abolitionist, and he has done it.

RESIGNED.—Senator Wilson, of Massachusetts, who in his Senatorial capacity, appeared so anxious for war and "blood to the knees," and who in his celebrated speech in the Senate spoke of Southern men thus—"We have got our feet upon their necks, and we will now crush them. Yes, fellow citizens, we will grind them to powder," was, by mistake, appointed "by the powers that be," a Brigadier-General! Has he battled as bravely as he talked? No, the coward! A few weeks since he made a great parade of his military prowess, and gave many high promises to the gallant men who had enlisted under his banner. He was "going to lead them to the enemy." The regiment of the valiant Abolition Senator—the man who desired to see "blood to the knees"—was hailed with enthusiasm, and New York citizens presented General Wilson's regiment with a splendid gift, and gave them a magnificent entertainment, at which the General made a speech—a most patriotic, eye, a most warlike speech. Well, General McClellan placed the noble Wilson and his men near Fairfax, right in front. A warrior would have been proud of this position, but Gen. Wilson was indignant and forthwith resigned! A Boston paper denounces this resignation as a shameful backing out—as a fraud and swindle upon the men who were induced to enlist from their high opinion of the General.

But the Boston paper may be wrong.—The Senator, we see, is announced as a sly contractor, having secured a large contract, by which he will realize, it is said a fortune. He evidently prefers the smell of leather to that of gunpowder. If the institution of liberty would not be jeopardized, we would like to be able to compel the Abolitionists and Secessionists to carry on the war, hoping that they would use each other up, and thus rid the country of two abominable, insufferable nuisances.—Caroline Volunteer.

CHEATING THE COUNTRY.—The frauds practised on the Government by contractors and dealers are so enormous as to sicken and confound the honest mind of the country. We see by extracts from southern papers that the same game is played there; and the papers express profound disgust at the contractors who are making prodigious fortunes by cheating the government. It is not to be wondered at that the "Confederates" should be robbed, for did they not begin their operations by stealing the arms, the arsenals, the mints, the money, the forts and the soil of the United States?

But when we read the revelations of the Fremont administration in Missouri, and the charges that are made against men in our own vicinity, when we learn of the stupendous expenditures that are called for and the vast fortunes that are said to be made by contractors in this and other parts of the country, we are fairly disgusted with this form (at least) of human nature, and we ask ourselves if there is not patriotism enough in the land to supply the army with food and clothing without extortion and fraud. All wars and all countries doubtless develop practices similar to those that now disgrace and dishonor our bleeding country, but we doubt very much whether the history of any former period, in any part of the world, will furnish chapters of imposition more flagrant than those which have already been published in the progress of our six months' war.—New York Observer.

A POINTED RESOLUTION.—The following resolution was adopted at a meeting held in Washah county, Ill. Resolved, That although the Democrats were strangers to the covenant made with Abraham at Chicago, yet they are made partakers of the blessings conferred upon the country under that covenant.

The Boston Post thinks it would be a good idea to put the epaulettes on Jesse's shoulders, and the apron strings around John Charles's waist.

SEWING MACHINES. WILCOX & GIBBS. Price with Hammer and Feller, \$35 00. THIS MACHINE HAS A POINT OF SUPERIORITY PECULIARLY ITS OWN. Stitching, Hemming, and Felling with a Single Thread. It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also under all circumstances "TO SURVIVE THE WASH-TUB." A patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress. Another feature which deserves particular attention is THE WILCOX PATENT NEEDLE CANNOT BE RY WOUND. Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch. These machines, so simple and accurate in their construction, supersede the use of the shuttle, and with one thread produce all the practical results of the two thread machines, and more, for these fell without busting and hem the finest muslin without puckering. Although at about half the price of the other first class machines, they will accomplish double the sewing in a given time. "It is emphatically the good, low-priced Family Sewing Machine that the public have long been wanting."—Boston Transcript. "It is indeed a wonderful production, and far family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal. "A mechanical wonder."—Scientific American. "Among the best and most serviceable Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle. "Has combined with its own peculiar merits all the really valuable improvements of the highest priced machines."—Pennysonian. "This machine is in the opinion of the committee, file more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858. "Taking into consideration simplicity, cheapness, durability, and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs single thread machine."—Pennsylvania State Agricultural Society's Report. "We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in providing, beyond doubt, that two threads are not, as was supposed, necessary to a good instrument."—Christian Advocate and Journal, June 21, 1860. "We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig. The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after some six weeks experience with Wilcox & Gibbs' Patent he has purchased one of them, as the best adapted to the wants of his family, and as the least liable to require repair. OLIVER CRANE, Boston, July 3, 1860. The undersigned, during eighteen months has had in almost constant use, in his family Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family, from muslin to pilot cloth—including the clothing required for his several boys; and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is in all respects, well appointed, efficient and durable. JACOB CHICKERING, Boston. Send for a Circular. JAMES WILCOX, Manufacturer, No. 508 Broadway, New York, Opposite St. Nicholas Hotel. October 24, 1861.
