The Clearfield Republican,

WEDNESDAY 18, DEC. 1861.

$1000 WORTH OF STORE GOODS are offered for County Orders by
Dec. 4 H. W. SMITH & CO.

TO BUILDERS—PROPOSALS WILL BE received by the School Directors of Penn township, until Saturday the 4th day of January 1862, for building a SCHOOL HOUSE at or near Dailey's Cross Roads—Contractors to find all materials. Plan and specifications may be seen at W. S. Porter's, up to that time.
Dec.11-1861-tf. W. S. PORTER, Sec'y.

WANTED.—The Printers want WOOD and COAL, to keep them from freezing. WHEAT, CORN, RYE, BUCKWHEAT, OATS, and MEAT, as an antidote for starvation, and a little CHANGE mixed with them, to enable us to buy clothes for our children.

☞Godey's Queen of Magazines for January 1862 has been on our table this two weeks, filled with pretty and useful embellishments, and the choicest literature. See prospectus.

☞*Peterson's Magazine* for January 1862 is a perfect model of art. No lady should be without it. For terms,&c., see our pa- of the 27th ult.

☞Col. BARR, of the Pittsburgh *Post*, is entitled to our thanks—at least for his good intentions—altho' his "early copy" of the President's message was four days behind time. No fault of yours, Colonel. May we have better luck next time.

Contributions to Volunteers.

All persons wishing to make contributions to the members of the "Washington Cadets," now in Virginia—which may tend to add to their comfort or relieve their wants—are informed that a regular Depot for such articles has been established at the residence of John McPherson, Esq., where special care will be taken of them, and from whence they will be forwarded at regular intervals—the first consignment to be made on the first of January next.

Persons wishing to send articles to their friends in other companies in front of Washington can do so through the same channel.

THE NEWS.

By an arrival at New York we have the first news of the manner in which the arrest of Messrs. Mason and Slidell was received in England. It caused much excitement in both Liverpool and London, and a public meeting was forthwith convened in the latter city, at which much indignation was at first manifested, which, however, gave way to suggestions to wait until they saw what the proper authorities thought of the matter. The London *Times* was rather mild and cautious, whilst the *News*, and other Journals, were very indignant.

LATER.—By the arrival of the Europa at Halifax on the 15th inst., we have London dates to the 30th ult. The action of the British Cabinet is war-like in the highest degree. The London *Times* says that the "Council had decided that the seizure of Mason and Slidell was a clear violation of National Law, and that a Special messenger should be despatched to Washington with instructions to Lord Lyons to demand reparation, and in case of refusal, to demand his passport."

Heavy armaments were fitting out for Canada; and the export of powder, saltpeter and other ingredients for the manufacture of ammunition, was prohibited by order of Privy Council.

The War News is not important. The city of Charleston was reported to have been burnt to ashes to prevent its falling into the hands of the Federal army; but later advices lead to the belief that it was only visited by a severe conflagration, but whether the result of accident or design is not known.

There are some indications of a fight in Kentucky between the rebels under Gen. Zollikoffer and the federal forces under Gen. Shoeff.

The reported victory of Parson Brownlow at Morristown, Tenn., is contradicted.

Nothing important from Missouri. Gen. Price was advancing Northward, and refugees were flocking to St. Louis—for the support of whom a contribution of $10,000 was levied upon the disloyal citizens of that city, by order of Gen. Halleck.

All quiet in front of Washington and along the Potomac—with some indications of aggressive movements. A private, named Wm. H. Johnston, belonging to the Lincoln Cavalry, attached to Gen. Franklin's Division, was executed on Friday last for desertion. Twelve men were detailed for the purpose. At the word, eight fired, when Johnston fell on his coffin—wounded, but not dead—when the remaining four fired and finished the fatal work.

Two Regiments—Col. Murray's and Col. Lewis'—now at Harrisburg, are under orders to march for Romney, Va. They will go by way of Bedford and Cumberland.

It is reported that several vessels are being fitted out at New York as privateers, to depredate upon the commerce of England, France and Spain, and to sail under letters of marque and reprisal issued by the Government of Mexico.

☞Our latest information from Washington indicates that the radical Abolitionists are not yet to have things their own way; that they cannot yet carry any of their extreme measures; that the Cameronian policy cannot yet be sustained;—but on the contrary, that a majority of Congress, with the aid of the Democrats, can be brought to sustain something like the policy recommended by Mr. Lincoln in his message. So far, so good.

☞It will take $53,000,000 to pay the interest on the National debt after July, 1863. The "free soil" must indeed produce abundantly if the people of this country do not find themselves involved in national indebtedness to a degree that will eat up their substance for generations to come. What a blessing free institutions are—*under Republican rule.*

MARRIED—On Thursday the 12th instant, by Wm. A. Bloom, Esq., Mr. Hosea Ereherd of Knox township to Miss Martha J. Bloom of Pike township.

DIED—In Beccaria township on Saturday the 7th instant, Mrs. Martha Steward wife of Joseph Steward formerly of Centre county, aged 55 y ars 9 months and 16 days.

SEWING GIBBS. WILCOX & MACHINES.

Price with Hemmer and Feller,
$35 00.

THIS MACHINE HAS A POINT OF SUPERIORITY PECULIARLY ITS OWN.

Stitching, Hemming, and Felling with a Single Thread.

It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also under all circumstances "TO SURVIVE THE WASH TUB."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

Another feature which deserve particular attention is

☞THE WILCOX PATENT NEEDLE CANNOT BE SET WRONG.

Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch.

These machines, so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.

Although at about half the price of the other first class machines, they will accomplish double the sewing in a given time

"It is emphatically the good, low-priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most serviceable Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Pennsylvanian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability, and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in proving, beyond doubt, that two threads are not, as was supposed, necessary to a good instrument."—Christian Advocate and Journal, June 21, 1860.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty differ six kinds of Sewing Machines, and after sometent, weeks experience with Wilcox & Gibbs' Padapshe has purchased one of them, as the best adapted to the wants of his family, and as the est liable to require repair. OLIVER CRANE.
Boston, July 3, 1860.

The undersigned, during eighteen months has had in almost constant use, in his family Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family, from muslin to pilot cloth—including the clothing required for his several boys; and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is in all respects, well appointed, efficient and durable.
