The Clearfield Republican.

WEDNESDAY JAN. 29, 1862.

THE TIME AT TYRONE.

The winter arrangement of the Pennsylvania Railroad, to-and after the first of Nov., will leave Tyrone as follows:

TRAINS LEAVING EASTWARD.

Express Passenger - - - - - - - 10,30 P.M.
Mail Train - - - - - - - - - 12.19 P.M.

TRAINS LEAVING WESTWARD.

Express Passenger - - - - - - - 7.33 A.M.
Mail Train - - - - - - - - - 1.15 P.M.
Fast Line - - - - - - - - - 8.26 P.M.

The Fast Line East, does not stop at Tyrone.

ARTICLE 9—SECTION 7.—That the printing press shall be free to every person who undertakes to examine the proceedings of the legislature, or any branch of government; and no law shall ever be made to restrain the right thereof. The free communication of thoughts and opinions is one of the invaluable rights of man; and every citizen may freely speak, write and print on any subject, being responsible for the abuse of that liberty. In prosecutions for the publication of papers investigating the official conduct of officers, or men in public capacity, or where the matter published is proper for public information, the truth thereof may be given in evidence; and in all indictments for libels, the jury shall have a right to determine the law and the facts, under the direction of the court, as in other cases.

Constitution of Pennsylvania

☞Col. Tate will accept our thanks for several public documents from Harrisburg.

DEDICATION.—The new methodist Church at Curwensville was dedicated to the service of the Holy One on Sund ay last. The ceremonies were of the most interesting character, and it was witnessed by a large concourse of citizens, and we hear that the financial affairs of the congregation are in a most satisfactory condition.

CAPT. A. M. SMITH, of the Washington Cadets, left us yesterday morning, for Camp Pierpont, after spending three or four days with his friends. He is enjoying good health—looks well—and full of martial spirit.

We also learn that Lieut. HARTSHORN, now of the Corps of Observation, is also on a brief visit among his numerous friends, intending to return at an early day.

CAPT. J. H. LARIMER, of the 5th Penn. R. C. has been spending a few days with us on furlough. Capt. L. was taken down about the 1st of December, with fever, and was quite low at one time. On gaining sufficient strength to travel he came home, and after spending a few days, felt so completely restored that he started for camp. On reaching Harrisburg he was seized with a relapse. He is now himself again, and anxious to be at his post.

THE WEATHER.—Some six or eight inches of snow fell on last Friday night. Saturday was warm, and threatened a general thaw; but towards nightfall a stiff breeze sprang up from the northwest, increasing to a regular blow, which was kept up on Sunday—since when we have been enjoying what might be called mild winter weather.

NEXT PRESIDENT.—The *Pottsville Standard*, in a long and ably written leader, urges our honored fellow-townsman, Ex-Governor BIGLER, for the next Presidency.—As we said, some sixteen years ago, when this same gentleman was first named for Governor of Pennsylvania, "the public welfare will suffer no detriment by the consummation of such a hope."

After twenty years of public life—during which time he was an active participant in all the great events that have marked that period—he retires to private life without the shadow of a stain upon his reputation either public or private.—Does the history of our country furnish a parallel?

Democratic Standing Committee.

In accordance with the usages of the Democratic party, and in pursuance of a Resolution passed at the Democratic county meeting held in September last, I have appointed the following standing committee for 1862. A. K. WRIGHT,

Clearfield—Dr. R. V. Wilson.
Beccaria—Dr. Geo. W. Caldwell.
Boggs—John W. Kyler.
Bell—Jacob W. Campbell.
Bradford—Jacob Pearce.
Brady—Roswell Luther.
Bloom—Hon. James Bloom.
Burnside—James McMurray.
Curwensville—Lewis I. Bloom.
Chest—Col. C. S. Worrell.
Covington—P. T. Hegarty.
Ferguson—Wm. Wise.
Fox—Jas. McClellan.
Goshen—Thompson Read.
Girard—Dr. J. W. Potter.
Graham—J. Blake Walters.
Gulich—Jos. Fry.
Huston—Hiram Woodward.
Jordan—David W. Weiss.
Karthaus—W. S. Sankey.
Knox—Geo. Erhart
Lawrence—William Brown.
Lumber City—Joseph Hegarty.
Morris—J. C. Allport.
N. Washington—J. M. Cummings.
Penn—Wm. Anderson.
Pike—Isaac Caldwell.
Union—L. R. Dressler.
Woodward Thos. Henderson.

"SHODDY PATRIOTS."—This is the title the Boston *Herald* gives to Sumner, Wade, Cameron & Co.—the men who prefer the negro to their own color and race—and at the same time would have the world believe that they are the only patriots in the country. And yet these selfsame individuals belong to a class that furnished our soldiers with *Shoddy* uniforms at three prices. These fellows are governed by the same principle that led the chap in the temple to pray and thank his Creator that "he was not as other men."

☞We observe that the Abolition papers are making much ado about the alleged fact that Jim Lane made a New Year's present of $1,500 to the widow Jenkins. They boast of it as a free-will offering, and that it goes to show Lane's liberality.

This he may well do after shooting her husband, and afterwards cheating her and her children out of all the real estate they owned in Kansas.

RAMLY SPOILED.—The sleigh that upset on last Saturday evening and spilled out a young friend down street. No matter. Park & Merrell can made all right.

CLEAR THE TRACK!

[Our citizens will be glad to learn by the following letter, that the railroad is now so far completed as to transport passengers from and to Sandy Ridge, reducing the time between this and Tyrone some three or four hours, and the expense one-fifth. The trip from Tyrone was made on Friday last—time, 55 minutes to Sandy Ridge, and 55 minutes from Sandy Ridge to Philipsburg.]

PHILIPSBURG, Jan. 22d 1862.

MESSRS. MOORE & GOODLANDER—

Dear Sirs: I desire to make known to the public through your paper, that on and after Thursday, the 23d instant, a car for the accommodation of passengers will be put on the Tyrone & Clearfield Rail Road, and run according to the following arrangement, leaving Tyrone on the arrival of the Western train on the Penn'a Road, about 9 o'clock A. M. will run up to Sandy Ridge 7 miles from Philipsburg, at which place passengers will take the stage in time to arrive in Clearfield about 5 o'clock, P. M. Returning they will leave Sandy Ridge after the arrival of the stage from Clearfield at about 2½ o'clock, P. M. Express goods will be carefully and promptly attended to, and arrangements will be made by Messrs. Bible & Edmonson, as soon as possible, to carry freight over the Rail Road as far as Sandy Ridge.

Feeling grateful to the citizens of Clearfield County, for their patronage during the last six years, I would most respectfully solicit, a continuance of their favors under present arrangements.

Fare from Clearfield to Tyrone, $2 00.

Respectfully yours,
C. R. FOSTER.

VERY MUM.—The Republican papers are as silent as the grave in relation to the disclosures of fraud and robbery, made by the Van Wyck investigating committee.

When treason has its knife at the country's throat and thieves and scoundrels in high places are stealing her resources by millions, we think there is as much cause for exposing and punishing the thieves as there is for putting down the rebels. The Republican press should not be so mum because the thieving happens to be "all in the family." It had oceans of indignation when Floyd was in the stealing business; and now, why can't it give Simon and his friends a touch?—*Venango Spectator.*

☞*Godey's Ladys' Book* for February is on our table adorned with all the beauty and interest that has established for this magazine an unparalleled popularity.

MARRIED—On the 23d inst., by James R. Caldwell, Esq., Mr. Lewis McCracken to Miss Dorcas Lewis, both of Ferguson township.

DIED—On Friday last, in this place, WILLIAM G., son of Thomas J. and Agnes McCullough, aged 15 months and 24 days.

Clearfield Markets.

ILLUSTRATED SCIENTIFIC AMERICAN.—THE BEST MECHANICAL PAPER IN THE WORLD.—SEVENTEENTH YEAR.—VOLUME VI.—NEW SERIES.

A new volume of this widely-circulated paper commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from two to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANICS AND MANUFACTURERS.—No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but a few cents per week to every number contains from six to ten engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANICS AND MANUFACTURERS.—No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but a few cents per week to every number contains from six to ten engravings of new inventions and discoveries, all of which are prepared expressly for its columns. It is an established rule of the publishers to insert none but original engravings, and those of the first in the art, drawn and engraved by experienced persons under their own supervision.

TO THE INVENTOR.—The Scientific American is indispensible to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the previous week, thus giving a correct History of the progress of inventions in this country. We are also receiving every week, the best scientific journals of Great Britain, France and Germany, thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

CAPITALISTS, ARCHITECTS, MILLWRIGHTS, AND FARMERS.—The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS:—To mail subscribers: $2 a year, or $1 for six months. $1 pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the 1st of January and July. Specimen copies will be sent gratis to any part of the country. Also a pamphlet of instruction to inventors about obtaining patents sent free.

Western and Canadian money or Post-Office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty five cents extra on each years' subscription to prepay postage. MUNN & CO., Publishers.

Jan. 15, 1862. 37 Park Row, N. Y.

EXECUTOR'S NOTICE.—Notice is hereby given that letters Testamentary, on the estate of JACOB GOSS, late of Decatur township, deceased, have been granted to the undersigned. All persons indebted to said estate are required to make immediate payment, and those having claims against the same will present them duly authenticated for settlement.

SEWING GIBBS WILCOX & MACHINES.

Price with Hemmer and Feller,

$35 00.

THIS MACHINE HAS A POINT OF SUPERIORITY PECULIARLY ITS OWN.

Stitching, Hemming, and Felling with a Single Thread

It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also under all circumstances "WILL SURVIVE THE WASH-TUB."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

Another feature which deserve particular attention is

☞THE WILCOX PATENT NEEDLE CANNOT BE SET WRONG.

Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch.

These machines, so simple and accurate in their construction, supercede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest needle without puckering.

Although at about half the price of the other first class machines, they will accomplish double the sewing in a given time.

"It is emphatically the good, low-priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most serviceable Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Pennsylvanian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability, and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in proving, beyond doubt, that two threads are not, as was supposed necessary to a good instrument."—Christian Advocate and Journal, June 21, 1860.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after somewhat extensive experience with Wilcox & Gibbs' Patent, has purchased one of them, as the best adapted to the wants of his family, and as the cut liable to require repair. OLIVER CRANE.

Boston, July 3, 1860.

The undersigned, during eighteen months has had in almost constant use, in his family Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family, from muslin to pilot cloth—including the clothing required for his several boys—and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is in all respects, well appointed, efficient and durable. JACOB CHICKERING, Boston.
