Speaking from our own youthful recollections, we are free to say that taper fingers and lily hands are very pretty to look at with a young man's eyes, and sometimes we have known the artless innocence of practical knowledge diplayed by a young Miss to appear rather interesting than otherwise. But we have lived long enough to learn that life is fall of rugged experience, and that the most loving, romantic and delicate people, must live on cooked or otherwise prepared food, and in homes kept clean and tidy by industrious hands. And for all the practical purposes of married life, it is generally found that for a husband to sit and gaze at a wife's taper fingers and lily hands, or for a wife to great sit and be looked at, and admired, does not make the pot boil, or put the smallest piece of food therein .- [ Anon-Wmous.

The days come softly dawning, one after another ; they creep in at the window ; their fresh morning air is grateful to his lips as they pant for it ; their music of the best quality, all of which will be sold at is sweet to the ears that listen to it ; until before we know it, a whole life of days has possession of the citadel, and Time has taken us for his own.
