

SEWING MACHINES
WILCOX & GIBBS

Price with Hammer and Feller, \$35 00.

THIS MACHINE HAS A POINT OF SUPERIORITY PECULIARLY ITS OWN. Catching, Hemming, and Felling with a Single Thread.

It forms a flat, even, and elastic seam which is guaranteed not to rip in wear, even when cut at frequent intervals, and also under all circumstances "to survive the wash tub."

A patented device of great utility to learners, prevents the possibility of the machine being used in the wrong direction, or the balance wheel casting a wavy thread.

Another feature which deserves particular attention is the "WILCOX PATENT NEEDLE CANNOT BE BROKEN."

Two covered stitches, or two yards of work, can be done in five minutes without dropping a stitch.

These machines, so simple and accurate in construction, surpass the use of the shuttle and a single thread in the practicality of their work, and the strength and durability of the work produced from them.

Although we do not sell at the price of the other sewing machines, they will accomplish double the amount of work in the same time.

"It is not only the good, low priced Family Sewing Machine that the public have long been wanting for the Boston Transcript, but it is a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical work."—Scientific American.

"Among the best and most serviceable Sewing Machines, light and elegantly finished, and simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburgh Chronicle.

"It is combined with its own peculiar merits with the really valuable improvements of the higher priced machines."—Pennysonian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any exhibition."—Franklin Institute Exhibition Report of 1868.

"Taking into consideration its light, cheapness, durability, and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs single thread machine."—Pennysonian State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great desideratum has been supplied by it, in providing, beyond all doubt, a thread machine, as well as an improved and necessary to a good instrument."—Christian Advocate and Journal, June 5, 1869.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after comparing the experience with the Wilcox & Gibbs' Machine, he has purchased one of them, as the best, and sent it to the agents of his family, and as the only one that he requires repair. OLIVER CRANE, Boston, July 2, 1869.

The undersigned, during eighteen months, has had in almost constant use, in his family, Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family, from custom to pilot cloth—including the clothing required for his several boys; and he does not have the same filled, although in hard service. The machine now in use in his family has required no repair, and in all respects, well appointed, efficient and durable.
