Consumpties, do not despair till you have tried Axxa's Gurany Pizzonat. It is made by one of the leat medical chemists in the world, and its cures all around us bearenk the high merits of its virtues.—Philadelphia Leeger

THE sciences of Chamletry and Medicine hare been taxed their atmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that there Pins have virtues which surpass in excellence the ordinary medicines, and that they win un-precedentelly upon the esteem of all men. They are sufand pleasant to take, but powerful to cure. Their pen-trating properties stimulate the vital activities of the bedy, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which reed and grow distemper, stimulate singulah or disco dered organs into their natural action, and import healthy time with strength to the whole system. Not only do they cure the every-lay complaints of every body, but also formidable and dangerous discuses that have haffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doors, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take: and being purely regetable, are free from any risk of harm. Cures have limit made which surpass ballef were they not substantiated by men of such exalted position and character as to forted the suspicion of untruth. Many emission description and physicians have lent their flames to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my have sout me the assurance of their conviction Preparations contribute furnersely to the relief of my

afflicted, suffering fellowmen. The Agent below named is pleased to formish gratis my American Almanae, containing directions for their are and cortificates of their curse, of the following complain which is the only reliable preparation and which can only be had through their regular agencies.

Dr. Hills will always be in his office on Pridays and Saturdays, unless notice to the contrary appears in the public papers on the previous week.
