Most Flattering Testimonials of its great value in the treatment of this painful and obstinate disease, we are induced to present it to the public in a form READY FOR IMMEDIATE USE, which we hope will commend itself to those who are suffering with this afflicting complaint, and to the medical practitioner who may be disposed to test the powers of this valuable remedy.

ELIXIR PROPYLAMINE, in the form above offered, has recently been extensively experimented with in the

PENNSYLVANIA HOSPITAL,

and with MARKED SUCCESS (as will appear from the published accounts in the medical Journals.)

It is carefully put up ready for immediate use, with full directions, and can be obtained from all the druggists at 75 cents per bottle, and at wholesale of BULLOCK & CRENSHAW, Druggists and Manufacturing Chemists, FOR SALE BY C. D. WATSON, Second Street Clearfield, Pa. Philadelphia

VULCANITE BASE FOR

Artificial Teeth!

ATTENTION is especially called to this article as a substitute for Gold in inserting Artificial Teeth.

Many persons who have tried all kind of Metallic Base PREFER this. And those cases where it will undoubtedly become a substitute for Gold, Silver or Platina.

Its chief advantages are cheapness, lightness and perfect adaptability to the mouth, it having a soft and fleshy feel to the parts with which it comes in contact.

A. M. HILLS is prepared to put up teeth on the Vulcanite Base with Goodyear's Patent Gum, which is the only reliable preparation and which can only be had through their regular agencies. Dr. Hills will always be in his office on Friday and Saturdays, unless notice to the contrary is given in the public papers on the previous week.

Clearfield, March 1861 tf. A. M. HILLS.

SEWING GIRLS

WILCOX & GIBBS

MACHINES.

Price with Hemmer and Feller

$35 00.

THIS MACHINE HAS A POINT OF SUPERIORITY PECULIARLY ITS OWN.

Stitching Hemming, and Felling with a Single Thread.

It forms a flat, even, and elastic seam, which is WARRANTED not to rip in wear, even if the seam is cut at frequent intervals, and also under all circumstances "TO SURVIVE THE WASH TUB."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

Another feature which deserves particular attention is

☞ THE WILCOX PATENT NEEDLE CANNOT BE SET WRONG.

Two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch.

These machines, so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.

Although of about half the price of the other first class machines, they will accomplish double the sewing in a given time.

"It is emphatically the good, low-priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A marvelously wonderful machine."—Scientific American.

"Among the best and most serviceable Sewing Machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its many peculiar merits all the really valuable improvements of the higher priced machines."—Tribune Circular.

"It is marketed, in the opinion of the committee, for more merely the 'appearance of a perfect family machine than any on exhibition."—Franklin Institute Committee Report of 1859.

"Taking into consideration simplicity, elegance, durability, and quality of work, the committee were unanimously in favor of the Wilcox & Gibbs single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs Sewing Machine. We consider that a great deideratum has been supplied by it, in sewing, beyond doubt, that two threads are not, as was supposed necessary to a good lock stitch."—Christian Advocate and Journal, June 7, 1860.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, M. Shoney, in Chestnut Hill, has examined more than twenty different kinds of Sewing Machines, and after numerous practical experiments with Wilcox & Gibbs' Patent, he has purchased one of them, as the best adapted to the wants of his family, and as the one liable to require repair. OLIVER CRANE.

Boston, July 3, 1860.

The undersigned, during eight months has had in almost constant use in his family Wilcox & Gibbs Sewing Machine, upon which has been made the clothing of his large family, from muslin to great coats—including the cloth, prepared for his servants' boys, and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is in all respects, well appointed, efficient and durable.

None are mailable except the Neuralgia Plaster, which we send in an envelope on receipt of Price [15 cents] and one stamp.
