VOL. XXXIII.—WHOLE NO. 1728

We love the friends our hearts hold dear, Our sisters and our brothers, But most of all, we ought to love

Our dear devoted mothers, Although this world is dark and drear Its joys partake of sadness, Yet, now and then there will appear A beam of love and gladness.

A MOTHER'S LOVE.

A friend may love us long and well, And cling through joy and sorrow, But then some evil cursed spell May chill this love to-morrow But firmer than the love of friends, And stronger than all other, The purest love we ever knew. Is that of our dear mother.

A sister's love is found and true, And full of tender feeling, Appreciated by the few And often unrevealing: But dearer than a sister's lave, And fonder than all others, The dearest, sweetest love on earth

Is a devoted mother's.

As a devoted mother.

A brother's love is firm and true. A father loves us longer; A wife's devotion greater still, And her affection stronger; But dearer than those loves combined, And sweeter than all other. There is no love as true and kind

They tell that spirits hover round, From evil to detain us; That friends, whom once we knew on earth In Heaven may still befriend us, But dearer here than angel's love. And purer than all others, The love on earth we need the most, Is a devoted mother's.

Then let us prize our mothers more, While they are left to love us ; And cherish in our hearts their words, If now they watch above us: And ne'er forget, or treat with slight, That love above all others. Which filled, forever burning bright, The hearts of our dear mothers.
