Lumber Dried by Superheated Steam, THE undersigned respectfully informs the people of Clearfield and the adjoining counties that he has the agency of the above Patent, and will sell Individual, County and Township rights for its use. The Lumber stried by this process is stronger, finishes better, i easier on tools, and requires less time in drying than any other process known—and drying I inch lumber perfectly in 36 hours, and better than many months under the old system-using the same amount of fuel per day that a common kiln consumes. The cer-tificates of a number of resident mechanics, well known in this community, is amply sufficient to convirce the most skeptical of its practical utility. Persons desirous of purchasing rights will address JOHN L. CUTTLE,

Clearfield, Pa. July 1, 1863.
