But before he reaches that point the Confederate authorities will be fully apprized of authorities will be fully apprized of colored horse, with dark main and tail, and havhis movement, and can send detachments by railroad, either from Lee's army at Richmond, or from Hood's army (now Nov. 9-3t.pd. Beauregard's) in Northern Alabama and Tennessee. This is, beyond all question, the "biggest thing" yet attempted during the war. If it is successful, Sherman will list of August last, a Brown Brindle Bull, white have eclipsed all other commanders for genius as well as boldness; but if he fails, it will not be the loss of what is left of Nov. 9-2t. pd. report, by way of Richmond, that Early, with a large portion of his force in the Shegandouh valley, had returned to Gordonsville, which is in railroad communication with Augusta, Ga., via the Danville road. Aside from this the war news has but little interest. Reports say that an J. I. Morris & Co. attack on Memphis is threatened by Beauregard, who is at Corinth.

A dispatch from Louisville, dated 19th, gives a report that Breckinridge, with 10,000 men, had defeated our forces at Bull's Gap, East Tennessee, A similar report comes via Richmond, and that the object is to invade Kentucky.

THE ARRY CONSUMPTION OF HORSES .ome interesting facts in regard to the apply of horses and their consumption by the army, have recently been presented by a Nawbury (N. Y.) veterinary surgeon, Dr. Vogeli. The census shows that the number of horses in the United States in 1860 was 6,115,458. After making deduc-tions for the Southern States, for horses under and above a working age, diteased and unserviceable, Dr. V. reduces the toloyal States to 1,067,808 animals. The inpual want for civil use is 144,018, for military use, 108, 742, or one-fourth annu- sleighs, carriages, &c. ally of the total horse supply. The colts Is fact, nothing that man or beast consumes, under four years old are estimated at 1, but what we keep or can get for our customers, il4174, one fourth of these, or 278,544 and will sell a little cheaper, having advantages will annually reach the age of four years, that no others in our business have. but as this number may be reduced one-goods, flour, bacon, or anything in our line at 10 tenth for deaths and disasters among the colis, the ultimate annual actual supply is \$10 at ten per cont. put at 250,690, while the annual need for the army and for civil life is 253,760, get to call and see us when they come to town, thowing a dedicioncy of 2,070 horses each.
