Messrs J. & J. H. DUVALL-Dear Sirs :- Our portable saw Mill and angine arrived last weekall safe and right, we believe-and we can say without meaning any flattery is behalf of Mr. Hardesty that he did himself credit in putting the util up and starting the same. Yesterday, ust one week from the time we unloaded the engine, he sawed with four hands, about 6000 feet of lumber in about eight hours, a portion of the logs were oak and neh. So far as we are able to judge, we think we will be able to send you a better report after a while. We are satisfied with the Mill and Engine, and can recommend them to any person who may desire a portable mill and engine. Yours, wishing you all success, REES S. LLOYD & CO.

THE ARBY CONSUMPTION OF HORSES .me interesting facts in regard to the pply of horses and their consumption by army, have recently been presented by a Newbury (N. Y.) veterinary surgeon, Dr. Vogeli. The census shows that the pumber of horses in the United States in 860 was 6,115,458. After making deductions for the Southern States, for horses under and abave, a working age, diteased and unserviceable. Dr. V. reduces the toal resources of the horse market in the val States to 1,067,808 animals. The annual want for civil use is 144,018, for 12-horse Olean wagon, timber-sleds, buggles, military use, 108, 742, or one-fourth annu-sleighs, carriages, &c. illy of the total horse supply. The colts In fact, nothing that man or beast consumes, under four years old are estimated at 1, but what we keep or can get for our customers, 414,174, one fourth of these, or 278,544 and will sell a little cheaper, having advantages annually reach the age of four years, that no others in our business have. LUMBERMEN supplied by the quantity with alts, the ultimate annual actual supply is \$10 at ten per cent. at at 250 690, while the annual need for ______ or Our Clearfield friends will please not for ut at 250,690, while the annual need for howing a dediciency of 2,070 horses each ear. Dr. Vogeli makes no statement of he mules which are used in the army, ough he allows for their use, which releves so many horses. If his estimates FORMERLY AT THE BELLEPONTE FOUNDRY-CHANGE its correct, there is good reason for the ligh price of horses besides the deprecia-

ion in the currency. The waste of horses the army from bad treatment and neget is enormous.
