OIL! OIL!

The excitement among our citizens is still high. We hear of the finding of several new oil springs in different parts of the county. A vast number of leases have been taken, and some bona fide sales have been made. In granting leases, we advise our land owners to be more careful. Every man who owns land should endeavor to have it developed. The more liberal the terms upon which he grants a lease, the greater the inducement of the lessee to commence operations. But he should be careful not to "tie up" too much of his land in this way. Generally the owner who gives a liberal lease and have plenty left; but he should in no instance include all his land in such lease.

There is no doubt at all but that we have large deposits of oil, and of the very best quality—much purer and richer than that of the celebrated Oil Creek region. The difficulty is to find them. Before this is done thousands and thousands of dollars may be spent.

The most important sale we have heard of is that of Ellis Irwin, Esq., who, we are informed, has sold his Lick Run property including some 1200 acres, to a Philadelphia company. The property is perhaps worth the amount paid for it for timber and coal, to say nothing about oil. It is understood that the company intend to commence boring without delay. The company will be organized this week with a capital of \$500,000, in shares of \$5 each.

We hear of other companies forming. The pioneer company in this place has taken a fresh start, and contemplate putting down a new well. Should we find oil in paying quantities, we will be ahead of all other oil-producing counties. We have the coal and timber in inexhaustible quantities, and we are nearest to the great eastern markets.

According to Provost Marshal Campbell's letter to Mr. Swoope it appears that 666 men were drafted in this county for the draft for 500,000 men. Only fifty per cent—or 333—were required. Of the 666 men drafted, "over" 370 failed to report. We presume, therefore, that about 500 did report. These men were required to report at Brookville, to reach which place they had to travel a distance—averaging at least 40 miles—over a very bad road at that season of the year. This failure, it is said, went far towards influencing Captain Campbell in sending troops to this county. Now, the test by which Capt. C's judgment is to be decided, is whether so large a proportion of the drafted men of any other county failed to report, and if so, whether soldiers were sent among them before a supplementary draft was ordered and made.

THE NEWS.

The Federals now occupy Wilmington, North Carolina—the city having been evacuated by the Confederates on the 22d instant, the day after they evacuated Fort Anderson. They now occupy no seaport or coast town of importance, between Richmond and Mobile. It is supposed that all the troops thus relieved have gone to reinforce Beauregard, who has been falling back before Sherman, and that a stand will be made and the fate of Richmond decided before many days by a desperate battle between Sherman and Beauregard somewhere in North Carolina.

DEPARTED.—The troops that have been stationed here for the last several weeks, took their departure on last Sunday morning for Philipsburg. Excepting two or three cases of the small pox reported among them, their visit seemed to be mutually agreeable with themselves and our citizens. We hope every man may live to return as citizens of a restored Union.

It seems to be generally by the universal consent of mankind that Dr. J. C. Ayer & Co's Sarsaparilla, Pectoral and Pills are the greatest remedies yet discovered for the treatment of disease; that Ayer's Sarsaparilla is the great Elixer of Life, which Philosophers have sought for purifying the blood. Try it and judge for yourselves.

OUR QUOTA.—The quota of men to be furnished by this county, to make up the deficiency on the last call, is reported at a different figure about once a week. According to the latest statement from the Provost Marshal's office at Ridgway, it is 233, and after putting in about that number our deficiency is fixed at almost double that number. Perhaps some heads can see into this, but we confess we cannot.

MONK WINTER.—The late soft weather did serious damage to the snow, spoiling the sleighing badly. But a fresh fall of snow yesterday morning puts things in motion again generally, and bids fair to bring March in "like a lion."

A MEMORABLE WEEK.—Last week was decidedly the most glorious week since the commencement of the war, indicating unmistakably the "clearing scenes." Charleston, Wilmington and Clearfield, all evacuated! Hurrah!

RETURNING TO FIRST PRIZES.—Our eastern mails reach us now pretty regularly two or three days behind time. Friday's Philadelphia and New York papers are received on Monday evening just as they were twenty years ago by stage all the way from Lewistown. Ain't we progressing?
