

GEORGE B. GOODLANDER, Editor.

WEDNESDAY MORNING, JUNE 27, 1866.

FOR GOVERNOR HIESTER CLYMER, OF BERKS COUNTY.

ARRESTED AGAIN.—That celebrated loyalist, bank robber and member of Congress—Culver—who now represents the Oil region in the Washington Rump, was arrested (for about the tenth time) last week, upon two warrants, issued by the mayor of Harrisburg, on the oath of the presidents of the Petroleum and Venango banks, charging him with fraud and embezzlement, in fraudulently obtaining possession of the United States bonds belonging to those institutions.

His loyal attorneys, as soon as they found that their friend had been arrested, for big crimes and misdemeanors, at once applied for a writ of habeas corpus, which the loyal judges granted quite speedily; but Mr. Culver, having succeeded in securing bail, was bound over for his appearance at court. We presume that after this there will be at least one "loyal" member of Congress opposed to the suspension of this writ of liberty. How strange that men, who but a short time ago had so little respect for it, should now be so hasty in seeking its benefits. When honest men were gobbled up by the bloodhounds of A. L., and thrust into military dens, the writ could not be found; but now, when a "loyal" scoundrel, who has robbed the soldier, widow, orphan, and business community out of millions of dollars, is arrested, according to law, moderate haste is taken to release a blood red criminal—a national highway man—from a common jail through the instrumentality of this writ. These things are all done in the name of "loyalty," under the guise of which but still such things pass as par among that class.

ANOTHER FLANK MOVEMENT.—The "loyal"—as it was announced—ladies of Mechanicsburg, held a straw berry festival last week, for the benefit of the Presbyterian church in that place, and among the items on exhibition was a steel engraving of Washington, which was put up to be voted for, at ten cents a ticket, the tickets to be labeled Clymer or Geary, according to the inclination of the voter. When the Fair closed and the ballots were counted, to the astonishment of all Clymer had a majority of 960. The reader will recollect that this is near where Geary resides, and the "blackest hole" in Cumberland County. The Harrisburg Telegraph and other disunion organs, in noticing this defeat, term it, in order to hide their chagrin, "a good joke." We think so too, because if loyalty, Geary, and the negro-phobians are defeated in the strongest disunion district, in his own county, what kind of a joke will it be when he is repudiated throughout the State next October? It is less than a month ago that the "boys in blue," also perpetrated a joke of a similar character upon Geary in this same county, in a convention of soldiers, 118 out of 140 voting for Hiester Clymer. We hope the disunion journals will continue perpetrating those "jokes" upon our candidate for Governor.

FOREIGN CHARITY.—That arrant demagogue, W. D. Kelly, member of Congress from Philadelphia, has introduced a proposition into that body, to the effect that the United States Government guarantee a loan of twenty millions of dollars to the Mexican "rebels." We think that Mr. Kelly and his brood had better devise some plan to pay off the enormous debt they have saddled upon the country already, in the interest of shoddy, without going to Mexico to increase it still more. We suppose that if Mr. Kelly would succeed in his scheme, the Mexicans would eventually receive but little of the proceeds of this loan, as he and his "loyal" friends would strike the first blow—at the Treasury—and Jay Cooke's "national blessing"—and be materially enlarged, for the benefit of a few political jugglers.

The Screw Business.

"Loyalty," like religion, is assumed and adopted by many persons at this day for sinister purposes, and serves as a cloak to cover a mercenary and devilish interior. We find many wearing this garb, and it serves as a lever to hoist them into pulpits and seats in Legislative halls. Some are to be found who wear both garments—religion and loyalty—for the purpose of accomplishing their purposes; and in no one individual is this truth more fully illustrated than in the conduct of an individual by the name of Simmons, who a few years ago, represented Rhode Island in the United States Senate. He was one of the most religious, loyal and refined members of that body; but late developments show, that while in that body his whole time and talents, were devoted to his own interests and the oppression of his constituents. The Baltimore Sun says:

"On several occasions when tariff bills have been under consideration in Congress for years past, much time has been spent in the contest for protection on wood screws. It turned out finally, when Senator Simmons was in Congress from Rhode Island, during the war, that there was only one such establishment in the United States, and that one in Rhode Island, and the Senator industriously looked after it. More duty was put on the importation of such screws accordingly, and the result is that the American Screw Company of Providence, with a capital of \$1,000,000, divided \$1,000,000 of profits among the stockholders in 1864—100 per cent! and have now divided \$1,200,000 for 1865—120 per cent. When Senator Simmons came into Congress we recollect that light was expected from him on the tariff subject, but was not obtained. He did not remain long in Congress, however; for some reason he was induced to resign—probably to go into better business. He is said to be a stockholder in the screw company, with its patent, and is, perhaps, now sufficiently protected."

It will thus be seen that 120 per cent profit is what the sagacious Senator was after. Is it any wonder our country is on the highway to ruin, when such mercenary creatures are allowed to make our laws?

THE RIGHT OF DESERTERS TO VOTE.—The Supreme Court of Pennsylvania, sitting at Wilkesbarre, rendered a decision on the case of Huber vs. Rankin, error to the common pleas of Franklin county, (the deserter voting case). The decision does not argue the constitutionality of the law of Congress, but is chiefly confined to the point of issue, to wit: The right of a judge of election to reject a man's vote when the word deserter is written opposite his name on the list of voters. Chief Justice Woodward and Justice Strong and Thompson decided that the judge of elections could not refuse a man's vote until he had been tried and convicted of desertion, while Justices Read and Agnew, on the contrary, held that the judges of elections were the proper persons to decide the question.

This is bad for the bill our loyal Governor signed last week. His great respect for the Constitution should have lasted a little longer.

Gov. Fenton, of New York, has been so much blamed for pardoning Zeno Burnham, the mock auctioneer swindler, that he now gives notice that all applicants for pardons must publish their applications, in a prominent newspaper, so that the public can state their objections.—Exchange.

Pennsylvania had a Governor that done the same thing, but he was in the habit of pardoning criminals before the Judges had time to sentence them, and the publication only seemed to make him more reckless. His Excellency in New York, will most likely land in the same ditch.

SIGNIFICANT HISTORICAL FACTS.—It is a fact that the Democratic party has always sustained every incumbent of the Presidential chair who has defended the Constitution, and the anti-Democrats have heartily opposed all such. The only three Presidents ever elected by the anti-Democrats were Harrison, Taylor and Lincoln. Each died in the Presidential office, and were succeeded by Vice-Presidents elected by the same party. In each case, the anti-Democrats quarreled with the Vice-Presidents, because they would insist on being guided by the Constitution—and they each, in turn, had to throw themselves for support on the Democratic party. These are significant historical facts.

GOIN' IN.—The "Government," is said to be determined to put a stop to all such outrages in the management of the Freedmen's Bureau as are mentioned in the reports of Gens. Steadman and Fullerton, and to that end he has detailed an officer to proceed to North Carolina and arrest every officer, agent, or employee of the Bureau who is interested in the cultivation of plantations, &c., &c., on his own account. The better way would be to strike at the root of the evil and abolish the whole concern.

Correspondence.

OSCEOLA, June 18, 1866.

Mr. Editor—Dear Sir:—As there is a great deal being said, at the present time, by the journals of all parties, in every quarter of the State, in reference to the next Legislature, and the expressed anxiety and wish everywhere that the material composing the next shall be the antipode, in every respect, of the last, I thought, perhaps, that it would not be out of place for the voters of this district to be turning their undivided attention to the nomination which they will shortly be called upon to make. We have never yet sent a representative to Harrisburg whose course we could not fully endorse, and we should still endeavor to keep our record clean. The experience of last fall should be a warning to us for all time to come. The advantage taken by the Republicans of the temporary disaffection that made its appearance in our ranks at that time, is still fresh upon our memories. Let us use our best endeavors to avoid a repetition of that disaffection, and frustrate that growing disposition on the part of our enemies to break down our organization.

I only recur to the past to give warning for the future; for I feel myself that the least said is soonest mended, and had it not been for the intimation thrown out to me, from a very reliable quarter, that last year's proceedings would be repeated at the next meeting of the conferees; and it must be apparent to all, that the Democracy of the district should see to it at once that harmony prevails in our councils. If the present aspirants to that position cannot secure the harmony so much desired, let some new name be introduced that can; and it is the general impression of the "unterrified" in this section of the district, that they can produce the "coming man," one who will heal the breach, and once more unite us as we were of yore. He is not committed to either faction that divided us last fall, and is a friend to all parties concerned; a man who is clear-headed, practical and capable; sound upon all the important issues which may be brought before the next session, and is one of the working class. In fact, it would be hard to find, in the whole district, one who is better qualified, in every regard, to represent the Democracy of this district in the next Legislature, and decidedly the most available.

The name I would give leave to offer is JOHN LAWESHE, of the firm of Lawshe, White & Co., of the Osceola Mills. Far be it from me, Mr. Editor, to claim it as a right. I never could reconcile it with my Democratic principles to admit that any man had the right to office in a republican form of government; the right belongs to the monarchial. I think the office should seek the man, not the man the office; and it would be the office seeking the man in the case of Mr. Lawshe. But I do claim that one who has worked as hard and achieved as much as Mr. L. has, is worthy of some of the honors. If you will refer, Mr. Editor, to the election returns of this township—you who have watched the returns of Clearfield county for years—and will compare the past two years with the years that have gone before, you will there perceive the work of him whose name I propose.

And apart from all this, I would also urge that this quarter of the district is entitled to some consideration at the hands of the party. From the present stand-point, it cannot be very long until a good deal will be expected of us; so give us some encouragement to act in the future, for we consider that we have been neglected somewhat heretofore.

With the hope that this suggestion may meet with your approval, I remain, in behalf of the glorious cause, Yours, &c., G. B. GOODLANDER, Chm'n.

OSCEOLA. OUR "DEAR" PRESIDENT.—Abraham Lincoln, the Illinois rail-splitter, has cost the Government, on his personal account, since his inauguration in 1861, nearly as much as all the preceding occupants of the Presidential chair put together. We have, for instance, the following items of expenditure to charge to his personal account, viz:

Table with 2 columns: Item and Amount. Includes: Repairing and re-furnishing the White House and improving the grounds, \$64,000; Salary for five years, \$25,000; Rewards for arrests of assassins, \$25,000; Expenses of trial, etc., \$150,000; Presented to Mrs. Lincoln, \$25,000; Furniture, plate, etc., stolen from the White House, \$75,000; Expenses incident to burial, \$30,000; For purchase of Ford's theatre, \$100,000; Other purchases incident to the assassination, about, \$75,000; Personal expenses of the President and family, including various steamboat excursions, etc., \$250,000. Total, \$1,430,000.

All the other Presidents put together only cost the Government about \$2,500,000. No wonder the people regard this latter one such a very dear man; and more especially so when they take into consideration the cost of his administration, which has become a debt this country can never pay.

Primary Election.

In obedience to the requirements of Rule 4th for conducting the Primary Elections of the Democratic party of Clearfield county, the Democrats of the several boroughs and townships are required to meet at the election house in each district on the second Saturday of July next, (being the 14th day of the month) at such hour as shall be named by the Vigilance Committee for each separate district, and to close at such hour as said Committee shall name—for the purpose of expressing by ballot, their choice of candidates for the respective offices, viz: one person for Assembly, two persons for Associate Judges, one person for Commissioner, and one person for Auditor, to be voted for and elected in October.

The following rules, 5th and 6th, are given for the information of those concerned. RULE 5th.—No person shall be permitted to vote at such Primary Election, except those who have voted with the Democracy at the preceding general election, or shall be of known Democratic standing, and no candidate shall be placed upon the return unless he shall have his card as a candidate inserted in the Democratic papers during at least three weeks preceding the primary election.

RULE 6th.—The townships committee or the election board shall designate one of their number to act as return judge, whose duty it shall be to take charge of the returns of votes cast, after having been duly certified to as being correct, and signed by a majority of the board, and carry to them to Clearfield Borough on the Tuesday following the election, and produce them at 3 o'clock, P. M., in the Court House, when said judges will be called to order by the Chairman of the County Committee, who shall preside. The votes shall then be counted and the persons receiving the highest number of votes casts at said election, shall be declared nominated for the respective offices for which they have been voted for. Provided said persons voted for shall have complied with the requirements of rule 5th; in case the person having the highest number of votes has failed to comply with said rule, then the person having the next highest number of votes shall be declared the nominee for said office.

COMMITTEE OF VIGILANCE. In accordance with the rules governing the Democratic party of Clearfield County, the county Committee have selected and appointed the following named gentlemen, to act as a Committee of Vigilance, for the respective boroughs and townships, the ensuing year. Heretofore the committee has consisted of but three persons, and it has often been demonstrated that through causes impossible to control, a majority of this number could not always be present, to discharge the duties enjoined upon them, and thus the duty of holding the primary election devolved upon those not designated. The County Committee deeming it no violation of our rules, have enlarged the committee, selecting seven persons in the large districts, and five in the small. They would suggest the propriety of these committees to hold a meeting a few days previous to the day of the election, and select from among, and designate, three of their number to attend and hold said election, and at the same time appoint the return judge, so that each may understand his duty, when the time of action arrives. It is hoped that all will take a lively interest in maintaining and upholding the rules and organization of the only party that has, and will, govern this country according to the Constitution, and the laws enacted in harmony therewith, and thereby restore us Union and prosperity to our distracted country, which has been so terribly afflicted by demagogues and traitors, under the guise of patriotism and "loyalty."

BITTER WINE OF IRON.—An excellent impregnation of dry Spanish Wine, with the activity of Calissay Bark, and the most energetic of all the ferruginous salts, Citrate of Magnesia Oxide of Iron. It has a vinous flavor, very grateful to the palate, is without chalybeate taste, and will not discolor the teeth. It excites languid appetite, gives zest to food, improves digestion, increases the strength, steadies the circulation, takes off muscular flabbiness, removes the pallor of debility, gives firmness and precision to the action of the nervous system, with power to endure fatigue and resist disease. CALISSAYA BARK is pre-eminent among vegetable tonics, has a stimulant effect on the restorative, not rivalled as an anti-periodic. It is peculiar, differing from the ordinary Sulphate of Iron, in place of the Ammonia. It is neutral, tasteless, without astringency, as prompt and energetic as the Chloride, and unlike that, induces no local inflammatory action or headache.
