Patented May 29, 1999.
This is an article for washing without rubbing, accept in very dirty places, which will re-uice a very sight rob, and unlike other preparations offered for a like purpose, will not not the chotnes, but will leave them much whiten than ordinary methods, without the usual wear and tear.

It removes grease spats as if by magic, and softens the dirt by soazing, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it

has been used. Among the advantages claimed are the following, viz.—

It saves all the expenses of soap usually used on cotton and linen goods.
It saves most of the labor of rubbing, and

wear and tear. Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water re-

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.

The manufacturers of this powder are aware that many useless compounds have been introduc-ed to the public which have rotted the cloth, or failed in removing the dirt, but knowing the in-triosic excellence of this article, the confidently proclaim it as being adapted to meet a demand which has long existed, and which has hereto-fore remained unsupplied. Manufactured by HOWE & STEVENS.

Also, Manufacturers of Family Dye Colors.
For sale by Stocers and Beslers everywhere.
