

ICE CREAM.—We are requested to state that an Ice Cream festival, for the benefit of the Baptist Sunday School, in this place, will be held at the residence of M. A. Frank, Esq., on to-morrow evening, (22d.) where all the friends are invited to attend.

We call the attention of our lumbermen to the card of George Falk, Esq., proprietor of the "Susquehanna Hotel" at Coxestown. Mr. Falk has, during the past summer, blowed out a number of rocks at his landing, and has planted posts for half a mile above his hotel. Give him a call.

BREAD FOR THE HUNGRY.—Messrs. Cutler and McBride desire us to inform Lumbermen, that they intend to supply them with bread during the approaching rafting season. They intend to erect a "Shebang" at the landing above the bridge, at this place, where those in want of the "staff of life" can be accommodated.

INFORMATION.—The raftmen will no doubt be pleased to learn, that in the future, lodging and provisions can be had at "Fulton's dead water." Messrs. Lounsbury and Johnson have erected a house at that point capable of entertaining two hundred men, and intend, hereafter, to make it their business to supply watermen with bread, meat, ropes, axes, and all the necessary out-fit for a raftman.

SWINDLERS.—We this week publish on our first page an article relating to lottery and gift swindlers, for which we bespeak an attentive perusal. The robberies committed by this class of highwaymen amounts to millions of dollars annually, and perpetrated upon those who are least able to bear it. We have no doubt but that our own little county is annually plundered of thousands of dollars in the manner indicated by this circular, and it is the duty of every citizen to denounce it. We could name individuals who have sent those villains five, ten and perhaps more dollars, who should have invested it in bread and meat for their children. Every dollar sent, either to a lottery or a gift enterprise gambler, is thrown away.

LECTURE ON CHEMISTRY.—The lecture on "Chemical Force," to be delivered in the Court House, by H. B. Swoope, Esq., on Tuesday evening next, we predict will be a rare treat to those not versed in chemistry. The study of this useful science, from its supposed intricacy and unfathomable depths, is grossly neglected, and consequently entirely misunderstood by the public. Those wishing to gain information on this point cannot devote their time to a better purpose than by repairing for a few hours to the Court House, on the evening indicated, listen to Mr. Swoope, and then examine and see for themselves how this science is rendered simple and plain when committed to the hands of one who has made it a part of his study.

READ IT.—We call the attention of our readers to the confession of the Rev. Lindsay, the child murderer. He claims that he was actuated by high motives while killing his child. This is just what his New England fathers said when they cut the tongues out of the Quakers' mouths, cropped their ears and then hung them. It was in the direct line of this duty, we suppose, that Roger Williams and his friends were banished. Under the same plea they robbed and drove the Indian from his possessions, and the same feeling lately murdered half a million of white men, and put on a line of extinction four millions of "colored brethren." If we are to accept the declaration of these Puritan demons, they are always 'actuated by the highest motives of man's nature.' The murderer, while in prison, should repeat the following daily: "The mercy I to others show, That mercy show to me."

INQUIRY.—The Pittsburg Commercial, in defending Speaker Hall of the State Senate against the imputations of that blatherskite Lowry, says that Senator Hall was never suspected for being partial to the interest of the Pennsylvania Railroad Company.

ARRIVED.—Henry St. Marie, the man who discovered John H. Surratt, in Italy, has arrived in Washington, and appeared before the Grand Jury against him. There is no word yet of the ship Swatara, which has Surratt on board.

LATER.—The last mail brings news of Surratt's arrival at Washington. PROMOTED.—The negro Solomon Johnson, who served as barber at the White House during the reign of the "late lamented," has been appointed to a first-class clerkship in the Treasury Department, at Washington. This is a good joke on his "white-truth" desk mates. If it was right in 1790 for a fastidious Frenchman to worship and adore a female prostitute, what is there to prevent a Puritan in 1867 from falling in love with a negro? It may, after all, be only a matter of taste.

Progress of the Greeley Reform.

Door-mat thieves are doing a rushing business in Bangor, Me. Parson Brownlow threatens to retire to private life. Private life will suffer.

A Washington cashier was dropped off the rear end of a Western train for insulting a young girl in the cars. It takes more money to run the Freedmen's Bureau than it did the whole Government under Jefferson.

A dispatch from Saco, Maine, says that Mrs. Sweet has been convicted of manslaughter for poisoning her husband. Hanson Bungarder was hung at Marietta, Ohio, on the 15th instant, for the murder of John T. Kaharke, in last September.

The Boston Post says: "A feature of the times is the steady withdrawal of money from the savings banks by the working classes." Confidences gone. Edmund P. Rossau, of Louisville, Ky., committed suicide on the 15th by shooting himself with a pistol. The cause was mental aberration.

Half a bushel of counterfeit postal currency was picked up in the street, in Detroit, a few mornings ago. Loyalty furnishes employment for a great many cute minds. Lindsey, the child-whipper, has been decided to be of unsound mind by the physician at the Auburn, N. Y., State Prison, and will be placed at an asylum that is not laborious.

A boy employed by Sloman & Edge, No. 19 South William street, N. Y., was robbed, on the 15th, of \$500 by a man who enticed him into a by-place and threatened to blow his brains out. Alfred Foss, of Limerick, Me., was way-laid on his return home from Portland, on the 15th, by robbers, who fired at and knocked him down and robbed him of \$280. Two men have been arrested on suspicion.

Miss Harris, who shot her lover, Burroughs, in the Treasury two years ago, and acquitted therefor by the jury which tried her, has just been committed to the insane asylum. A fitting end to a most dismal tragedy. Three men named Lee, Cofer, and Home, were arrested in Chicago on the 14th, charged with forgeries of Buena Vista county bonds, State of Iowa, to the amount of \$40,000. A preliminary examination was had to-day, and the prisoners were held to bail.

Henry Kenian, of Portland, Me., a sailor on the bark Mary E. Libby, was stabbed to the heart by Charles Johnson, a runner in Mrs. Robert Douglas's boarding house. The murderer was arrested. The cause of the murder was an altercation on the previous evening. James Ryan, of Onandago county, N. Y., was arrested at Binghamton, on the 8th, on the arrival of the Syracuse train, for the murder of his step-father, Jerry Denham. This morning, on going to his cell, he was found dead, having strangled himself with his suspenders.

Major H. C. Ransom, of Hartford, Conn., while laboring under a temporary fit of insanity, threw himself from a window of his residence, falling a distance of fifteen or twenty feet, crushing his skull and causing instant death. For several days he had been in great trouble and perplexity in consequence of some disarrangement in his business affairs, and it was observed that his mind was affected.

The house of H. G. Dur, at Milton, Mass., was entered on Thursday last, during the absence of the family, and a trunk, containing notes, mortgages, &c., and about \$10,000 in United States bonds, was carried off. The trunk was afterwards found, but the bonds had been abstracted. The robbery was committed by three young ladies, who have been arrested and are now in jail. The bonds were found on them.

Clifton Harris, colored, and Luther J. Verrill, white, were arraigned at Lewiston, Me., on the 14th, on a warrant charging them with being the murderers of Mrs. Kensley and Miss Caswell, on the 17th of January. Harris pleaded guilty, and Verrill pleaded not guilty. Verrill also waived a preliminary examination, whereupon both prisoners were committed to Auburn jail for trial before the Supreme Court, on the 23d of April next.

"HEARING ABOUT IT."—A gentleman who had spent much time in Texas during the past two years, was in Springfield, a few days since, when he heard a Freedman's Bureau man talking largely of the awful state of society in Texas. I have seen six negroes shot down in a day, said he, naming the locality; and this, he averred, was no more than the daily average there. The gentleman said this could not be. I have seen it said Bureau. My residence has been in that locality, said the gentleman, and what you say I know to be untrue. Not one negro has been shot there in a year. But, said Bureau, I have heard that six a day were shot down. "Heard?" said the gentleman, didn't you see the shooting? No, I heard of it, and I believe it, said Bureau. But you just said you see it. No, I didn't see it—you misunderstand me—I heard about it, said Bureau, as he sneaked away.

SHOOKING BARBARITY.—A brutal affair took place in Pittsburg a few days ago. Some hogheads of sugar were placed outside of a grocery store, and attracted the attention of some children on their way home from school. The children put their fingers through the crevices and holes of the barrels and indulged in sweets for a few minutes. Suddenly a man named Batchel rushed out from the store with a vessel of boiling water and dashed it upon the children, who were dreadfully scalded. One little boy presented a shocking appearance, the entire side of his head, face and neck being literally cooked. The doctor stated that it is probable that all the hair from one side of the head will come out, and will never grow again. It is also feared that one of the eyes will be lost. The brutal perpetrator was arrested and held for a hearing. He desired to make an information against the child for the larceny of sugar, but was not permitted.

SETTLED AT LAST.—The long contest for the establishment of a new Naval Depot was decided in the Rump, last week. League Island, in the Delaware river, below Philadelphia, has been adopted as the place to found this new government workshop. Here all the iron-clads are to be housed—to rot. The millions spent by loyalists on many of those unnavigable crafts, will soon find the bottom.

The New York Commercial, a leading disunion paper, has got tired of the Washington hum-buggers. It lately gives no quarter to the impeachers—but, uniformly speaks of them as the Butler-Forney-Phillips schemers, and of "the threatenings of Ashley and Butler and Loan as harmless as theatrical thunder." Not so "harmless," though, for already they have cost the country millions.

A BILL TO INCREASE THE PRICE OF THE NECESSARIES OF LIFE.—The N. Y. Evening Post says that no man who expects to continue in public life can afford to vote for the atrocious swindle upon the farmers, mechanics and workmen of the United States—called the Tariff bill—which ought to be styled "A bill to still further increase the prevailing high prices, and to grind the faces of American working men." The people are learning a costly lesson—they are beginning to find out that this continued tampering with the industry of the country, produces evil and only evil to them, however it may enrich a few favored manufacturers.

A man who kept a scolding wife broiled asked what he did for a living, replied that he kept a hot house.

It is better to reconcile an enemy than to conquer him.
