

NOTICE.—The Rev. Mr. PRINCE will preach in Northampton on Sabbath, June 1st, at 10 o'clock, at the school house on the corner of 2d and 3d streets, in the morning, at 2 o'clock, at the school house on the corner of 2d and 3d streets, in the afternoon, at 7 o'clock, at the school house on the corner of 2d and 3d streets, in the evening.

Quite a number of rafts passed this place the beginning of this week, on their way to the eastern market.

MAPLE SUGAR.—Mr. H. W. Smith has received and is now selling a prime article at his store on Market Street.

Super Phosphate of Lime, ground Bone Dust and other fertilizers necessary for farms, for sale at Hartwick & Irwin's.

Do not fail to read the laws published on our first page, in reference to schutes and the floating of loose logs in the Susquehanna river, allowing soldiers to peddle, etc.

Mr. E. W. Graham has just returned from the east with a large stock of new goods and wishes his old customers, and the public generally, to give him a call. He charges nothing for exhibiting goods and charges but a small percentage for selling them.

ABSENT.—The Rev. Mr. Harrison, Principal of the Academy, was telegraphed for on Monday evening by his friends, and left for Frederick, Maryland, to pay the last vows to a dying father. It is not likely that the Academy will be opened before Monday, the 3d proximo.

The needy and the curious, the old and the young, are cordially invited to call at the store of Messrs. Wright & Flanagan, on Second Street, for the purpose of scrutinizing the new goods they are dealing out to their friends. Some might suppose from the towering height of the junior partner, that goods would be very high, but he soon brings them down—low, very low. Pop in.

ESTERNE.—Our attention was called to the fact that Mr. Jas. Shine on the 1st of March entered into a contract to complete by the 1st of June next, a two story frame house, 35 by 35, and on the 25th instant the building was finished, ready to occupy. If this kind of enterprise continues, the old plan of waiting two or three years for the completion of a dwelling will be abolished. The work was all done by hand except the doors and sash, and that too during very unfavorable weather. Such enterprise is commendable; and there is room in this vicinity for it to flourish without one crowding his neighbor.

We observe that he is now engaged repairing and remodeling the Western Hotel in an extensive manner, and will no doubt put it in "running order" as promptly as he did his house.

GUILTY.—This terrible verdict was pronounced against Charles Chase, on the 18th instant, at Brookville, for the murder of old Mrs. McDonald, in Washington township, Jefferson county. The jury deliberated twenty-seven hours. Judge Campbell at once sentenced the prisoner to be hung in the jail yard of Jefferson county, at such a time as the Governor might fix. It is just three months since the murder was committed, and one of the culprits is now ready for the gallows. This is the way to prevent crime—execute the law promptly. Dean Graves, one of the murderers, is still at large. Facts have lately transpired to show that Chase and Graves are two of a band of twenty-five or thirty burglars, horse thieves and murderers, doing business in Clarion, Centre, Indiana, Jefferson and this county. Three more of the gang (Stevens, Barber and Lee) were on Thursday last arrested and placed in our jail for horse stealing.

AN INCORRUPTIBLE PATRIOT.—President Johnson recently addressed a note to Mr. DeFrees, the Superintendent of the government printing office, asking that he would give work to a poor printer whom he had known in Tennessee, and whom he knew to be needy and deserving. Mr. DeFrees replied that the President had no claims on him, and that letters from the White House could have no weight in regard to appointments. Mr. DeFrees must have liberal and generous ideas of public service, as well as a high notion of personal courtesy. The security of our government would properly be endangered if it were understood that the President of the United States has sufficient influence to get work for a poor type setter in the government printing office. We can understand now the anxiety of Congress to keep Mr. DeFrees in that position. He seems to be exactly the kind of person needed to carry into effect the paltry ideas of the extremists. A man of larger notions might have complied with the President's request, and then what would have become of the country? DeFrees will be entitled to a leather medal on the return of the Rump to Washington, for being a gentleman!

HORACE GREELY, terms the New York log rollers "blackheads," and the language of the celebrated disunionist, Wendell Phillips, in a recent speech, "hypocritical and infamous." Horace is evidently coming to his senses. He may yet do enough good in the world before he dies to overcome the evil he has done.

NEURO SUFFRAGE.—Read what the lamented Douglas, one of the greatest of American statesmen, said: "I hold that this Government was made on the white basis, by white men for the benefit of white men, and that posterity forever, and should be administered by white and none other. I do not believe that the Almighty made the Negro capable of self government." When the Democracy, time and again made the charge that the aim of the Republican party was to bring about Negro suffrage, they were branded as falsifiers, and many good men in the Republican ranks were deceived by the deception practiced by their leaders. That many of the great men of the Republican party did not tolerate the idea of Negro suffrage is no doubt true, but to continue in power they were willing to throw themselves into that political maelstrom radical fanaticism which has swept over the country, leaving ruin and desolation in its tracks; the result of all this is Negro suffrage, not only in the South and in the District of Columbia, but at our doors in the State of Pennsylvania.

Queen Victoria completed her forty-eighth birthday day on the 25th inst.
