

THE REPUBLICAN.

THURSDAY, AUGUST 29, 1867.

BASE BALL.—The regular monthly meeting of the "Moose Base Ball Club" will be held on Thursday evening, August 29th, at eight o'clock, at the usual place of meeting.

By order of the President, WRIGHT GRAHAM, Secy.

RULES IN BANKRUPTCY.—The official rules and regulations in bankruptcy, as adopted by the U. S. District Court, are for sale in pamphlet form at the office of the Erie Observer, Erie, Pa. Price, 30 cents a copy, or eight copies for \$2.

We direct the attention of our readers to the annual report of George W. Snyder, Esq., County Superintendent, which will be found on our first page.

TREMENDOUS HAIL STORM.—The hail storm which passed over this county on Sunday last was the heaviest visitation of its kind within the recollection of the oldest inhabitant.

An old preacher in Western New York, who was being urged by some of his churchmen, during the political excitement in that State, last fall, to join the Radical party, said:

"No, my brethren, I can't join that party, because all the Abolitionists in the country are in it; and Abolitionism, my brethren, has done a wonder: it has done away with the people. It has made many shepherds and scattered many flocks. It got into the Methodist church and broke that up. It got into the Presbyterians and split them in two; and got into the Government and broke the old Union to pieces."

The West Branch Boom Company are now having erected in the river, at the foot of Hephurn street, one of the finest dams ever placed in the Susquehanna river.

Stanton has gone to hide himself in the White Mountains. We do not see how he could possibly do a better thing for himself or his country just now, than to go up on one of their highest crags and jump off.

An exchange gives the following as the correct correspondence between the Executive and Stanton:

Russia has its Poland and Siberia, Great Britain its Ireland, France its dead Cayenne penal settlement, and the Federal Government its disfranchised and desolated South, governed by the sword.

The Detroit Board of Trade has passed a resolution that two hundred pounds shall hereafter constitute a barrel of flour.

Blacks for Office.

Nothing so much worries the party of great moral ideas, as the possibility that the Freedmen under the new order of things, will insist upon running as candidates for Congress, Mayors, Aldermen, etc.

The Buffalo Courier is led to the belief that J. Wilkes Booth is still alive. It gives several reasons for the opinion, among which is the statement that a few weeks ago a gentleman of undoubted veracity, who has been a wide traveler, called at the office,

A Mexican paper says that Lopez, the traitor, after selling Maximilian and his generals, went to Puebla to see his wife. She met him leading their little son by the hand, and thus addressed him: "Sir, here is your son; we cannot cut him in two, take him. You are a base coward and traitor. You have betrayed your country and your benefactor. From this hour we are strangers for I shall retire to my family. Go!"

The average yearly production of distilled spirits in the United States during the past five years has been fifty millions of gallons. The revenue has been collected on about seventeen millions. Loss to the government \$66,000,000 annually.

A late rebel says—"I respect the Northern man who honestly fought for the Union, but I despise the traitors who under the name of Union, have used the Northern people to destroy the South, and then to destroy the Constitution."

There has been a strong case of miscegenation in Evansville, Indiana. A pretty young white girl has married a coal-black negro, and her father is very much put out about it; the negro is also much put out—of the house.

The people out West are evidently getting quite smart. An Iowa paper declares upon its "honors" that it knows of a babe six months old that said the other day to its mother: "Give me a drink of water."

A correspondent of the Charleston News, in a recent letter from Washington, Ga., writes that Gen. Tombs will soon publish a letter that will "scare timid folks" and raise a breeze, politically.

Suprap Power.

The Hon. Henry S. Pugh, U. S. Attorney at Savannah, in a late legal opinion said: "Next to usurpation of power, there is no higher grade in political crime than a timid abandonment of rights."

For 2,500,000 votes the Radicals have 216 members in Congress, whilst 3,500,000 Democrats have but 60. No further argument than these figures is needed to show the intemperate character of the Radical usurpation.

It is said that Surratt is to be tried again as soon as Congress can pass a law to put negroes on the jury. White men are not supposed to be intelligent enough to understand the case.

Two hundred thousand cigars are made at the Michigan State prison per month. The Alabama claims elude payment as Sommes used to elude fight.
