There is an individual in Detroit who proposes to sail over the falls of the Niagara in an india rubber life boat. The shape of the boat, and the peculiar mode of its construction so as to make the operation a safe one, are fully described. Thirty thousand dollars is the price at which a a man risks his life in this foolhardy experiment that can result in no good even if successful. If there is any law against suicide on either side of the Niagara, surely this is a case that ought to be looked after.

A Western editor replies by assuring his cotemporary that a good many men had done that same thing by marrying one. A Northern editor retorts that quite a number of his acquaintances, found trouble enough by barely promising to marry, without going any further. A Southern editor says that a friend of his was bothered enough and came nigh being shot when simply found in company with another man's wife.
