FRIGHTFUL STATISTICS.

The Atrocities of the Radical Party.

(From the National Intelligencer.)

In this indictment we have thus far dwelt only upon things fundamental—the tearing of one-half the States by violence from the rest, thus blotting one-half of the Union from the map—the destruction of civil liberty in these States—the overthrow of the Constitution—the insidious undermining which, if permitted to continue, must ultimate in the toppling over of the whole governmental fabric. Of the cost of this—of the substance wrang from the sweat of men's brows to pay strike the people with dismay, and cause them as therefore the Barcau nearly tweive millions were required. At this rate, for the three years the Barcau nearly tweive millions were required. At this rate, for the three years the Barcau nearly tweive millions were required. At this rate, for the three years the Barcau nearly tweive millions were required. At this rate, for the three years the Barcau has been in existence, it has consumed thirty-six millions and we know that a vasily greater amount—at least fifty millions—have been spent upon it, all to keep the Radical party in power.

The rate at which we are going to ruin—the astounding sums of money drawn by the tax gutherer from the hard labor of the people, and spent, can be better understood when we say that during the seventy-three years preceding the war, (as estimated recently,) the whole expenditure of the Government amounted to less than fourteen hundred millions of dollars, while the Radical party in the one years preceding the war, (as estimated recently,) the whole expenditure of the Government amounted to less than fourteen hundred millions of dollars, while the Radical party in power.

Such as a special party in power.

The rate at which we are going to keep from the sweat of men's brows to pay for it—we have said nothing. Little. we trust, will answer our purpose. Let these figures rather indicate than express the grinding burthens of the

express the grinding burthens of the people, put upon them by keeping the Radical party in power.

They have, by the manner in which they conducted the war, and by prolonging it for years after it might and should have been closed, and by the most unnecessary, reckless and ruinous prodigality of the people's money, created a public debt whose ascertained (official) amount is about two thousand five hundred millions of dollars. (\$2,500,000.) and which, when two thousand five hundred millions of dollars, (\$2,500,000,) and which, when the unascertained is added to it, will, as estimated by Thadeus Stevens, (who had charge of the subject of finance, or ways and means and appropriations, for several years in the House of Representatives, including all the years of the war and since, and who, therefore, had the best means of information on this subject,) amount to the astounding sum of five thensand millions of dollars, (\$5,000,000.) This estimate of Mr. Stevens' probably includes the private claims for the destruction of property North and South, struction of property North and South, debts arising out of breach of contract debts arising out of breach of contract by the government, and spoliations at home and abroad, growing out of the prosecution of the war, and probably, in his contemplation, also, the assumption by the general government of the war debt of the several States, counties, towns, &c. Others, again, have estimated the debt, all things included, as high as six thousand million dollars, (\$6,000,000.)

They have not only not less read the contract to CASH BUYERS.

They have, from the 30th of June. 1864, to January 1, 1868, collected from the people a revenue amounting in all, as set down in the official record, to seven billions, six hundred and eighty-seven millions, eight hundred and one thousand and sixty-four dol-lars, (\$7,687,801,064,) including the five billions, six hundred and twenty-sevtwo thousand, three hundred and sixty. Under the head of "miscellaneous," two hundred and thirty millions, one hundred and fifty-one thousand, nine hundred and fifty-three dollars, (\$230, 151,953,) having collected in the one year of 1866—under this "miscellaneous" head, mark you - sixty-seven millions, one hundred and nineteen thousand, three hundred and sixty-nine dollars, (\$67,119,369.)
