CLEARFIELD, PA. TRUESDAY MORNING, JANUARY 28, 1869

The Great Swindle. The greatest robbery now being perpetrated upon the American people under the guise of a public benefit, is the railroad jobbing undertaken by Congress. By the schemes set up by that body, the people will not only be robbed of millions of dollars in money, but of all the public lands; that which should be held in reserve for the payment of the interest on our huge public dept, is being frittered away by our Representatives as of no account whatever. The members are not satisfied with being made wealthy through the construction of the Pacific railroad, but seem to be looking around for an opportunity to swindle and rob every railroad com-

pany chartered by the States. We are pleased to notice that our member, Mr. McCallough, at Harrisburg, has taken the "bull by the horns" by introducing a joint resolution in the House, calling upon Congresimen to desist from and abaudon ters in the States than a citizen has
