THE REPUBLICAN.
CLEARFIELD, PA.
WEDNESDAY MORNING, SEPT. 8, 1869.
THE REGISTRY LAW.
To the Democratic Voters of Clearfield County:
For the purpose of showing you what you will have to do this fall, to enable you to vote, the following exposition of the new election law, (as it is called, the Registry Law,) is prepared for your use. The special attention of naturalized voters is called to its provisions--they are picked out to be especially worried before they can vote. Read the exposition of the law for yourselves:
1. On the first Monday of June the Assessors are to begin a revision of the transcript of names furnished them by the County Commissioners. This duty consists of the several paragraphs following:
1. Strike out the name of every person whom the Assessor knows, personally or by reliable information, to have died, or removed from the district since the last previous assessment.
2. Add the name of any qualified voter whom the Assessor shall know, personally or by reliable information, to have removed into the district since the last previous assessment.
3. Add the names of all persons who shall claim to be qualified voters in your district; assess them with a tax, and ascertain by inquiry upon what ground the person so assessed claims to be a voter. This duty involves no discretion on the part of the Assessor. He is not to decide upon the claimant's right to vote, but only to report his name and the grounds of his claim.
4. The Assessor is next to visit every dwelling house in his district, and make careful inquiry if any person whose name is on his list has died, or removed from the district, and if so, to take his name from the list; or whether any qualified voter resides therein whose name is not on his list, and if so, to add the same thereto, with whom, and if working for another, the name of the employer.
5. Opposite each name write the word "voter."
6. If the person claims the right to vote by reason of naturalization, he must exhibit his certificate to the Assessor, unless he has been five consecutive years next preceding a voter in said district, and in all cases where the person has been naturalized his name shall be marked with the letter "N," where he has merely declared his intention to become a citizen, the word "I" to be added to his name, and if he has removed into the district since the last general election the letter "R" is to be placed opposite his name.
7. A separate list of all new assessments, and of the amounts assessed upon each person, is to be immediately furnished to the County Commissioners, together with the general list revised and corrected, as aforesaid.
8. On receiving back from the County Commissioners duplicate copies of said list, with the observations and explanations noted as aforesaid, the Assessor, prior to the first day of August, is to place one copy on the door, or other conspicuous part of the house where the election is required by law to be held, and to retain the original, free of charge, of any resident of the district.
9. The Assessor is to add, from time to time, to his list the names of any one claiming the right to vote; mark opposite the name the letters "C," "V," "N," "I," and note, as in other cases, his occupation, residence, whether a housekeeper or a boarder, and with whom, and whether naturalized, or desiring to be naturalized, in all such cases, and if he is claiming to be assessed be naturalized, he must exhibit his certificate of declaration.
10. In all cases where any ward, borough, township or election district is divided into two or more precincts, the Assessor shall note in all his assessments the precinct in which each elector resides, and make a separate return for each precinct to the County Commissioners, and when he receives back the duplicate copies, one of them is to be put up on the election house of the precinct.
11. On the tenth day preceding the second Tuesday of October, the Assessor shall "return to the County Commissioners" the names of all persons assessed by him since his former return, together with the observations and explanations before specified; and it shall not be lawful for any Assessor to assess any tax within ten days next preceding the second Tuesday of October.
12. Assessors have power to administer oaths, and are to be paid by the

County Commissioners for the time necessarily spent in performing the duties imposed by the act.
11. The County Commissioners have various duties to perform under the Registry Law, but as they have consented to discharge them, it is not necessary to set forth their duties in this exposition.
12. As to the Election Officers: They are to open the polls between the hours of six and seven, A. M., on the day of election. Before six o'clock in the morning of the second Tuesday of October they are to receive from the County Commissioners the Registered List of Voters and all necessary election blanks, and they are to permit no man to vote whose name is not on said list, unless he shall make proof of his right to vote as follows:
1. The person whose name is not on the list, claiming the right to vote must produce a qualified voter of the district to a written or printed affidavit to the residence of the claimant in the district for at least ten days next preceding said election, defining clearly where the residence of the person was.
2. The party claiming the right to vote shall also make an affidavit, stating to the best of his knowledge and belief where and when he was born, that he is a citizen of Pennsylvania and of the United States, that he has resided in the State one year, or, if formerly a citizen therein and removed therefrom six months next preceding said election, that he has not moved into the district for the purpose of voting therein, that he has paid a State or County tax within two years, which was assessed at least ten days before the election, and the affidavit shall state when and where the tax was assessed and paid, and the tax receipt must be produced unless the affidavit shall state that it had been lost or destroyed, or that it could not be produced.
3. If the applicant be a naturalized citizen, he must, in addition to the foregoing proofs, state in his affidavit where, when, and by what court he was naturalized, and produce his certificate of naturalization.
4. Every person claiming to be a naturalized citizen, whether on the registry list, or producing an affidavit as aforesaid, shall be required to produce his naturalization certificate at the election before the voters assembled, or to have been for ten years consecutive, "sworn on" his certificate with the month and year, and no other vote can be cast that day in virtue of said certificate except where sons are entitled to vote upon the naturalization of their father.
5. If the person claiming to vote who is not registered shall make an affidavit that he is a native born citizen of the United States, or, if born elsewhere, that he produces evidence of his naturalization, or that he is entitled to citizenship by the reason of his father's naturalization, and further, that he is between 21 and 22 years of age, and has resided in the State one year, and in the election district ten days next preceding the election, he shall be entitled to vote, though he shall not have paid taxes.
13. As to the Voters: Any qualified citizen of the district has a right to challenge any voter, though his name be on the Registry List, and the Election Board are required to receive his naturalization certificate, and to admit or reject the vote, according to evidence.
14. On the petition of five or more citizens of the county, stating under oath that they believe that frauds will be practiced at the election about to be held in any district, it shall be the duty of the Court of Common Pleas, or a Judge thereof, to appoint two disinterested, sober and intelligent citizens, who are Overseers of said election, and who are to be different parties, except where both parties belong to the same political party, and then the Overseers are to be taken from the opposite political party, and then to be present with the Officers of the Election, to keep a list of voters, to challenge voters, and generally to perform the same duties as Inspectors.
15. The act is full of penalties and forfeitures, but as a new act is to be enforced by them forth with the guidance of Assessors, Election Officers and Voters, a popular election will be very difficult if all the provisions of the law be strictly enforced. Indeed, it is not easy to see how Election Officers are to find time to receive the ballots of the qualified voters in some precincts, if they investigate thoroughly all the issues that may be brought before them, and it is considered that all the elections are thrown upon the general election, and that separate tickets are to be voted for State, County, Township and Municipal officers at the same time that judicial questions are to be investigated and decided, it is apparent that many citizens will be liable to lose their chance to vote unless they are vigilant and vote early.
Every man should see for himself that he is registered, taxed, and, if he is a naturalized foreigner, that he is provided with his proper papers. It creates all possible objections to their exercise of the right of suffrage, and nothing but vigilance and perseverance on their parts can secure their rights. "The price of liberty is eternal vigilance."

Do Story.—The Pooria (Ill.) Transcript tells the following touching one about a diminutive black and tan dog: "He was in the eager pursuit of a rat, burrowed some distance into the ground, and as he went filled up the hole with the dirt he removed. He was missed for eight days, when one day his owner heard a suppressed bark coming seemingly from under the ground, and upon digging brought the adventurous dog to the surface. He was rather the worse for nothing, but beyond that was as good as when he first disappeared."

New England Puritanism--Its Latest Manifestations.
We cannot say that this latest Byron scandal, which was a woman, and that woman a Beecher, for its author, has absolutely startled the world, but we can and do say that Mrs. Beecher Stowe meant to give the world a sensation and that she has not been successful as she intended and believed she should be. No matter. That attempt has failed. If the raking up of the ashes of the dead and the vilifying of great names have broken a Mogog into the coffers of Fields, Osgood and into the pocket of Mrs. Beecher Stowe we have every reason to believe that they will be satisfied. Like the Pharisees of old they have done their work and they have had their reward.

We have no desire at present to go into this dirty business. We cannot say there is blood on the hands of either Mrs. Stowe or the proprietors of the Atlantic Monthly; but if there is anything worse than mere and unmanly in all ages, to disturb the dead or to vilify their memory, and of such an order Mrs. Stowe and the proprietors of the Atlantic Monthly have been guilty. Byron may have been as bad as Mrs. Stowe makes him, but she has failed to prove it. This, however, is not the main point. She has unmercifully, and with out good done a piece of work which is as filthy as any work can be. If it pays, Mrs. Beecher Stowe and her publishers will, we suppose, be satisfied.

To us this whole affair is interesting
