St. Andrew's Church—**Episcopal**—Rev. Spence Hall.—Public Service Sunday morning at 10 o'clock, and at 7 P. M.—Sunday School at 2 P. M.—Prayer Meeting Wednesday evening at 7 o'clock.

Presbyterian Church—Rev. Mr. Boyer.—Public Service every Sabbath, morning and evening.

The School Directors of Woodward District, it will be observed by our advertising columns, will let the building of a School House on the 27th.

We notice that the workmen are engaged in embellishing the Shaw House in a very substantial manner, by placing stone steps and platform at each front door.

William Wise, of Ferguson township, had a valuable horse killed the other day, by lightning. The horse was standing near a tree in the pasture field, down which the electric streak passed, at the same time killing the animal.

Pic-Nic.—We understand that our Catholic friends contemplate holding a grand pic-nic at Osceola, on Monday, the 15th day of August. The proceeds are to be applied in finishing a parsonage now being erected at that place. A general turnout of the friends is expected.

The Fair.—It will be noticed that the officers of our Agricultural Society propose holding a Fair on the 12th, 13th and 14th of October, next. They are making gigantic arrangements for a grand exhibition. It now becomes the duty of every Farmer and Mechanic to put his shoulder to the wheel and help to make it a success.

The Erie *Gazette* of the 4th says: We are gratified to learn that Mr. D. Livingston, United States Internal Revenue Assessor, who has been spending a few weeks in our city, has greatly improved both in health and spirits by his visit. He will remain some time longer in the city and we hope that he will be still further benefitted.

"What to Wear and How to Make It"—Is the title of a book of Instructions on dress and dress-making, published by Mme. Demorest, at 15 cents. Dress makers and ladies generally will find in this manual much useful information, and complete instruction in every department of ladies' and children's dress. It is issued semi-annually, and sent free of postage.—Address Mme. Demorest, 838 Broadway, New York.

For Young Men and Young Women.—The *Young Folks' Rural* is the novel title of the new Rural and Literary Monthly being issued by H. N. F. Lewis, the publisher of the *Western Rural*, at Chicago. Prizes are offered for stories and contributions on various subjects by young writers, and fine premiums for clubs of subscribers. Terms, $1.00 per year. The first 500 subscribers are to be credited for two years. We think this paper must excite a great interest among the young men and young women throughout the United States. Address H. N. F. Lewis, Publisher, Chicago.

PETER A. GAULIN, P. M.

"The carpenters have commenced work on our neighbor Goodlander's new brick residence. Wonder where he raised the "dingbats" for that purpose?"—*Journal.*

Fifteen years steady labor and economy, with an eye single to our present undertaking has enabled us to raise the "dingbats for that purpose." The ten hour rule never would have "got us out of the woods," but fifteen hours and medium health, has driven the wolf from our door; and every man has the same chance. The course is open to all. And if our patrons pay us what they owe, we can build another. What do you think of that, brother?

The Census.—The Census Bureau has issued orders to the Deputy Marshals not to furnish the press nor individuals with any information on this subject. We have however, gathered from other sources the fact that the population of our borough has nearly doubled in the past ten years and will be about 1,400. We notice that the citizens in fast towns are unwilling to accept the work of the officers as correct, because it fixes the population far below their estimates. In towns where they expected 2,000 population they have but 1,200, and where they expected 3,000 they have about 2,000, etc. Few towns exceed fifty per cent. of increase since 1860, while Clearfield will be at least ninety per cent.

Piers for Rafting.—The Clinton *Democrat* of last week says: "We are pleased to announce that the work of erecting piers for the protection of rafts stopping at Lockport, across from Lock Haven, is proceeding with most commendable speed, two piers having been already erected. When the next flood comes raftsmen will find a harbor where they can safely tie up. The prompt action taken here has stirred up Mr. Herdic and his friends. It was doubtless thought that by holding back public notice of the scheme to get the market moved from here, the arrangement could be perfected below before anything would be done here, and, at the same time, it could be offered as an excuse for the removal, that they had waited three or four months and nothing had been done. The promptitude with which something was done here is to guarantee enough that it would have been done earlier if the committee had obeyed the resolutions, and the people here been informed of their demands by having them published in Lock Haven papers; but no, they held them back, and when they were published it was not in a paper, but in Clearfield. Evidently this bears the impress of scheming to get the market from here. But it will be found difficult to accomplish it now that the piers are to be erected and due protection given.

"The action here has occasioned Messrs. Herdic, Fisher and Reading of Williamsport, to visit Clearfield, as last week's Republican informs us, "to consult with the appointed committee," and, further, that, "they offered to fix up the shore at that point (Williamsport) in any manner the committee might advise, and thus secure this important trade at that place." Before that committee make any arrangements below they should, if they mean to do fairly towards this point, learn what is doing and what is contemplated before entering into rash promises about moving the square timber market to Williamsport and leading to preparations therefor at that point. If they do that they will be advised that we are in earnest here and at work. If not, then the work will go on anyhow, and those gentlemen may find that they have a big thing on hand when they attempt to move the square timber market from Lock Haven to Williamsport."

The Academy.—This institution is closed during the warm weather, and no doubt the vacation will be a relief to teachers as well as scholars. The Academy has been in a very flourishing condition under the auspices of Professor Harriner, who is fully competent in all the branches of a finished education. True, this institution is not patronized as it should be. It is most beautifully located on the banks of the West Branch of the Susquehanna River, with a beautiful and romantic scenery, in a most healthy and pleasant portion of the town of Clearfield, and, with an accomplished and fully competent corpse of teachers in all the branches, as well as music, the question often arises, "Why have we not more pupils from a distance?" The fault, I am satisfied, is not with the Professor. He is untiring in his efforts to impart instruction to his pupils. Our town is getting to be quite respectable in size; boarding houses are no longer scarce, and all the advantages presented elsewhere can be obtained here; then why is it that instead of 50 to 75 pupils there are not three times the number on the list, and they of the more advanced branches? The trustees, with proper exertions, could certainly make this school one that not only the town but our county would look upon with pride, and the grateful thanks of those who graduate will constantly go out to warm the hearts of trustees, teachers and friends. Then why not make a sufficient effort? Must not the rising generation soon take the places of those who are now occupying the most responsible positions in society? Is not this community interested in having able and efficient officers of every grade and class? Education is essential in every position and condition in life. What is society without refinement, and what is refinement without education? *

A Grove Meeting.—We are requested to state that a Grove Meeting conducted by Messiah's Church, will be held in the grove near Kylertown, commencing on the 1st day of Sept. next, and continue one week. Elders Shipman and Cutter, will be present. A cordial invitation is extended to all well disposed persons to be present. 2t

We are informed, that on Friday morning last, Mr. Wm. Condo, of Curwensville, met with an accident under the following circumstances: He was at Schwem's Hotel, Luthersburg, and on getting up at an early hour, he fell from the head of the stairs into the hall below, and was considerably bruised; though not dangerous.

Croquet, *alias* Presbyterian billiards—a game played with long handled mallets and half round hoops sharped so as to be driven in the ground—not the twenty-four-spring-duplex-elliptic—and wooden balls, of the size of a big goose egg, by young men and women—of both sexes—principally of the female gender, in somebody's back yard, late in the afternoon about sundown—may be we've got the thing a little mixed. The game however, is quite popular in these parts. Wonder, if it takes its name from the inventor? Wonder, again, if the famous Davy Crocket, was the inventor? If so, how are you, Dave?—*Ex.*

From the Monongahela *Republican* of the 28th ult., we learn that on the 26th, a new house in that place, at which a number of persons were at work, was struck by lightning. One young man, Mr. Astley Cooper, a painter, who was holding a ladder for his partner to stand on while painting the gable end of the house, was killed—the lightning running down the ladder. The man on the ladder was uninjured—except that he was knocked off and fell to the ground, cutting his head severely. Several other persons were more or less stunned by the shock.

We see it announced that the editor of a Youngstown (O.) paper lately went up in a Balloon, in pursuit of some of his *delinquent subscribers*. A cotemporary suggests that he has taken the *wrong road*, as such chaps always go in the *other direction*. Our Christian charity induces us to hope otherwise.

In retiring from the *Revolution*, Susan B. Anthony says she feels a great, calm sadness, such as a mother feels in binding out a child she cannot support.

THE KIDNEYS!

The Kidneys are two in number situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.

Pain occurring in the loins is indicative of the above diseases. they occur to persons disposed to acid stomach and chalky concretions.

THE GRAVEL.

The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY.

Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.

Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise by which the watery or calcareous depositions, and all unnatural enlargements, as well as pain and inflamation, are reduced, and it is taken by men, women and children. Directions for use and diet accompany.

Philadelphia, Pa., Feb. 25, 1867.

H. T. Helmbold, Druggist:

Dear Sir—I have been suffering, for upward of twenty years, with gravel, bladder and kidney affections, during which time I have used various medical preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

Stumps! Stumps!!

THE undersigned has purchased the right of Clearfield county for Enoch Farnsworth's Stump Extractor, patented June 7th, 1870.—This is decidedly the most convenient, most durable, and best machine of the day. Wet weather will not affect it, the working part being all of iron. The machine is easily set up, and will work any place that can be plowed. We will sell machines at a small profit on cost, and will try to make it to the advantage of farmers to buy them. We solicit orders from those wanting machines.
