DENTAL CARD.

Dr. A. M. HILLS

Would say to his patients and the public generally, that, having dissolved partnership with Dr. Shaw, he is now doing the cutire work of his office binnelf, so that patients need not fear being put under the hands of any other operator. Having obtained a reduction of the patent on the plate material, I am enabled to put up teeth much cheaper than formerly. I also have Dr. Stuck's patent process for working rubber plates, which make a much lighter, more clastic and stronger plate for the same amount of material, and polities the plate on both sides, rendering it much more easily kept clean. Special attention paid to the preservation of the natural teeth, and all works guaranteed entirely satisfactory to patients.

23 Office at the old corner, opposite the Shaw House. Office hours from 8 to 12, a m., and 1 to 5, p. m. Patients from a distance should notify me a few days beforehand of their intention to come. Always at home, unless other notice appears in both the county papers.
