DR. A. M. HILLS Would say to his patients and the public generally, that, having discoved parfhership with Dr. Shaw, he is now doing the entire work of his office himself, so that patients eved not fear being put under the hands of any other operator. Having obtained a reduction of the patent on the plate material, I am enabled to put up teeth much cheaper than formerly. I also have Dr. Stack's patent process for working rubber plates, which make a much lighter, more cleatin and stronger plate for the same amount of material, and polishes the plate on both sides, rendering it much more easily kept clean. Special attention paid to more easily kept alean. Special attention paid to the progression of the natural teeth, and all work guaranteed entirely satisfactory to patients.
