How is Turs? &c -- Several week ago our Cameron exchanges, for the purpose of demonstrating that Emporium, the capital of that rounty, was a very intelligent and populous town, stated that the postmaster had mailed something over 300 letters in one day. That's business, to be sure; but what do you think when we tell you that Mr. Ganlin, the postmaster at this place mailed 954 letters on Wednesday last?

BURGLARY. - Some evil-disposed cass" on Thursday night last removed a large owers's grocery store, and entered and stole therefrom about five dollars in money, together with a lot of brandy peaches, pickled systers, and like that of some smart young man, but the enter-ing process bears the marks of a manly burglar, and is just the kind of a case for our police officer.

COUNTERPEITS ABOUT .- Within the past two weeks we have been shown quite a num of counterfeit two dollar bills, purpo eroed by the Ninth National Bank of New York | &c., at Watson's. City. The bills are protty well executed, and when ared, as some are, will readily deceive those who are not in the babit of handling money. The unred are easily detected, because the paper i anch whiter than in the genuine bills. There is evidently some one "shoveing" these bills in this

PITTSBURGE FEMALE COLLEGE.-It is with no ordinary pleasure that we commend to our readers the Pittsburgh Pemale College. It is every way worthy its widely-extended and grow-ing reputation, and just such a school as thought-ful parents, who prefer as reducation to a diploma-only, will be rejoiced to find. It aims at a broad only, will be rejoiced to find. It aims at a broad only, will be rejoiced to find. It aims at a broad, and generous culture, to units solidity with polish, and by a thorough training of the mental and moral powers to fit young ladges for the duties and responsibilities of life. The influences of a Chris-

ian home are combined with the advantages of a chool of the highest grade. The charges are noderate, less than any school in the United States hing. Twenty-two teachers have been engaged for the coming year. The large and beautiful buildings are fitted up in excellent style, and in a word, every possible preparation is making for the Pall term, which commences September 5th.

AN OILY TRICK.—It is reported that an old trick of 1865, pouring oil in a dry hole, and then selling out, was lately practiced near Salina, on the Clarion turnpike. An old well, on Ifall's Run, was recently drilled deeper, and the men at the well, "with ways that were dark, and tricks that were vain," after finding it a dry hole, procured a few barrels of oil and poured in. When a prominent Franklin operator came down, the well was pumped, and the oil flowed freely.—Franklin man got excited, bought out the interests Franklin man got excited, bought out the in of the men at the well at fancy figures, and four out too late that the well had been "doctored."
