An excessively scientific and learned correspondent of the Curwensville Times has discovered the power of the sun to be 217,316,000,000 horse power, or 343,000,000,000 engines, each 400 horse power. We hope this powerful machinery will in no way interfere with the extension of the railroad. It is well that there is an engineer and driver to centrol those captes and horses, for if they would get loove all at ence they would "turn up Jack" and no doubt frighten the Times committee and some other timid people.
