In accordance with the rules governing the Democratic party, the Return Judges of the several boroughs and townships of Clearfield county assembled in the Court Room, in Clearfield, on Tuesday, the 10th of June, for the purpose of opening and counting the votes cast for the several candidates for county officers on the Satdidates for county officers on the Sat rday previous.

The convention was called to order at about 3 o'clock by D. L. Krebs, Chairman of the County Committee. Upon a call of the boroughs and townships, it was manifest that nearly all the return judges were present. On motion of Clinton Thompson, of Bell, John W. Bantz, of Clearfield, and H. J. The Chairman then proceeded to order, whereupon the several return judges handed in their returns, the Clerks tallying the number of votes cast for each candidate. [A tabular statement of the vote will be found

statement of the vote will be found elsewhere in this number.]

The returns, having all been tailied, the result showed that Dr. Boyer was nominated for Assembly, W. R. Mc-Pherson for Sheriff, Wm. W. Worrall for Treasurer, Clark Brown for Commissioner, Frank Fielding for District Attorney, Lewis C. Bloom for Auditor and John W Shugart, for Jury tor, and John W. Shugart for Jury Commissioner, and a motion to that effect prevailed unanimously. No names having been announced for the office of Coroner, which has

been vacant for several years, it appeared by the returns that 76 votes bad been polled for Wm. Tucker, 40 votes for George Thorn and 25 for Jos. II. Deering. Mr. Tucker being pres-ent declined, whereupon the return judges declared George Thorn the nominee. The next business before the Convention was the selection of a District of Pennsylvania, met on last Monday in the city of Williamsport.

American school-house has been managed at the Exposition: "The American school-house is in a bad way." can school-house is in a bad way.

Congress made an appropriation of \$5,000 for the construction of a model building of this kind. Sometime last to their power.

Fall, Mr. Philbrick, Superintendent of the public schools of Boston, wrote to General Van Buren, that he would erect and finish a model American school-house for \$2,600. General Van Buren replied that he could have it follows. Buren replied that he could have it constructed cheaper. It now appears from a memorandum found at head quarters that the contract was let to Col Lyman Bridges, of Chicago, for \$10,000. The structure is only about half completed, but its total cost, finenough has gone into the pockets of into electing a drunkard, where is the somebody to have built a half dozen line to be drawn? False and Reckless Display. The Albany Argus comments with natural indignation upon the estenta-tious display made by the arrival of the President's household at Long Branch, when eight furniture wagons transported the juggage from the rail-road station to the house, followed by five carriages and nine or ten horses, for pleasure taking. This magnifi-cence, the Argus thinks, accounts for the President's signature of the salary grab bill; but it is mistaken in supposing that this display is all made at the expense of the Chief Executive. It fails to notice the fact that many of the articles thus brought to Long erty, but belonged to the nation, and were removed from the White House cable to legitimate business transac-tions, or not, there is no question of its correctness when applied to politi-

As this man would, although not a freeholder, have been a voter but "on account of race," the case appears very clear; and as his success will enfranchise ten thousand others in that State, we may as well count on "little Rhody" rejoining the Democratic family.

A young officer serving with his company at the Lava Beds is said to have received a letter from his lady love, containing the following passage:

"If anything should happen to you, do make some arrangement to have your hair recovered and sent on. It is the exact color of mine, and I can't set a nuff of the right shade here.

of the times : "No politician of ordinary intelli-gence can fail to perceive that the ties of party in the Republican organization are looser than they have ever been in any previous period of its his-tory. The Credit Mobilier scandal, the back-pay steal, the corruption at Harrisburg, the municipal swindling. both in Pittsburgh and Philadelphia, and the control of the party machinery by men utterly unworthy of con-fidence or respect, have produced a deep impression upon the people, and have disgusted thousands of voters, who have no other interest in political than to secure an honest and efficient administration of public and govern-

Such being the ease, will the friends
of Reform take advantage of the opportunity, and turn it to the overthrow of the corruptionists, or will they con-tinue to follow the beaten course that dertaks. leads to inevitable defeat? The peo-ple are ripe for a revolt against Kadical party trammels, and all that is lacking is bold and able men to combine the hosts of the opposition, and lead them on to certain victory. The signs of the times are too plain to allow of a mistake as to their tendency.

More Personal Rule—The Venango Spectator says: There is considerable foeling among the Republican brotherhood in Medaville concerning the postoffice. There are a great many patriots up there who would like to be postmaster, and they are making the town lively with denunciations of the present incumbent and Congressman Richmond. Meanwhile the Meadville post-office, if not a bed of down, is a sort of Lava Bed, and its possessor is a Captain Jack who is not willing to relinquish his position.

All attempts so far made to get Postmaster Derickson to come out and go on a reservation have failed. The heaviest charge against him is that he has filled the office with members of his family—that you can't go inside without running against a big Derickson or treading upon a small one.
