FATAL ACCIDENT.—On Monday last, about one o'clock, a fatal accident occurred on the Clearfield Railroad, near the Inter-section, by which a son of Mr. J. S. Gonder, of this place, aged about nine years, was killed. The boy had gone out in the morning to gather berries and had told his father, who is a brack-maker, of the train, that if he could have his basket of berries brought home on the train he would be ready to go home. As the train came along the boy was standing on the track with the bucket of berries on his shoulder and the father reached down, while the train was in motion, took the bucket and walked to the middle of a gondola when he heard the boy cry out. Looking over the side of the car he could see nothing of the boy and immediately jumped from the train in search of him, and was horrified to find that he had not been killed, but had been struck by the train and thrown under the wheels, but he was not killed. It is surmised that after being notified of the boy's death, the father of the car attempted to get on, but by some means was thrown under the train and instantly killed—some forty cars passing over his head. His body was severed from his body, the back of the head being crushed, and one hand crushed. His remains were gathered together and brought home shortly after dark. Mr. Vander had no idea that the boy intended making an attempt to get on the train before taking the bucket from his shoulder. He did not further attempt to kill himself, but his cry. This family has been particularly unfortunate within the past year. But a few months since three children died of scarlet fever within a few days of each other, and for the past three months another has been lying seriously sick from the effects of the same disease. The sudden taking off of this third child, and a bright, smart boy he was, is a terrible blow to the parents, who have the sympathy of the whole community in this hour of their sad bereavement.—Tyrone Democrat.

DAMNABLE.—We have reliable information to the effect that an attempt was made in Harrison township, on Saturday night, to blow up a school house. A can of powder was ignited under the building and the shock to the wall and table and lamp, and elevated the building so as to blow out the boards which lay on the walls under the sills. The music of the act is fully developed when we state that a temperance meeting was in progress and about twenty persons were in the building at the time of the explosion. The wickedness of this act is more readily imagined than detailed.

THE STATE FAIR.—One of the notable events of the year, to take place at Erie, on the 20th of September. At the most important season of our annually held autumn fair, the Pennsylvania State Agricultural Society will hold its Annual Exhibition. The display gives promise that it will be one of the very best ever held in the history of the Society. The entries are free to all the world, and the Society have widely determined that the books of entries shall close a week before the opening, that a complete arrangement may be made of the exhibits referred for prizes. The time is at that period in which clear, good weather may be expected with certainty. The premiums upon many articles have been considerably increased, and the list much enlarged. The arrangements for meeting each evening of the Fair are a new and excellent feature. In these meetings farmers may learn of new methods, to the benefit of the great agricultural interests which the Society is anxious to foster. A very large display of improved farm tools will be on exhibition—of fine horses and samples of all the best breeds of horned cattle—the turn out in such a hive of industry as Erie, of manufactured articles useful as machinery, or as aids to the farmer, is certain to be worthy of attention. So many assurances in these respects have been given, that we feel confident in stating that the display in these departments will be entirely satisfactory. The officers are now at work, the books of entries open, and all applications for space in person or by letter will receive the most prompt attention from.

IN THE WOLF BUSINESS.—The citizens of Union, and those residing in the northeast corner of Italy, have been greatly annoyed all summer by a pack of wolves, which have infested that neighborhood, destroying their sheep and making night hideous with their howling. Last week Samuel Troy, an old hunter, took it into his head to capture some of those baying "demons." After giving chase for three or four days he set two traps. The second night after the citizens supposed from the continuous howling kept up by the beasts, that all the wolves in the State must be congregated in "Gelnett's" windfall," about two miles west of the Summit tunnel, on the low grade railroad. The howling was made for Troy. He knew that at least one beast of prey would kill the man on the spot. Upon returning to where he had set his traps, and while digging around in the bush, he espied one of the beasts, and raising his "howl" to his shoulder he blazed away, and Mr. Wolf roared over, giving a faint howl. This was scold number one. Passing along he had set a trap, he found it gone, but following the trail he soon overhauled wolf number two, and giving him a hearty kick, he concluded to let him go. Going on to where he had set the other trap, he found it gone, and following the trail he soon espied wolf number three in the distance, and moved on him, dispatched and scalped him. Thus, in less than two hours, killing three of those destructive wild beasts. On Thursday last he presented his certificate to Treasurer Wilson and drew his bounty—thirty-six dollars.

HOLD ON, GENTLEMEN.—We are in receipt of a perfect avalanche of communications on the Moore movement; but we are compelled to file them away for the present, because the Agricultural Society and Sheriff Jones are just now making a heavy fight upon the Moore movement. Ladies' wear. Ladies, see them to be convinced that they are the ones to buy. Also, a large lot of Ribbons and Traces and other goods. Also, a large lot of Ribbons and Traces and other goods. Also, a large lot of Ribbons and Traces and other goods.

WELL SOLD.—Old convention-goers, from this and Jefferson county, all remember the "Oyster House," on Little Turkey, below the mouth of Broadly Camp. The Elk movement says the house, together with the farm thereon belonging, consisting of two hundred and sixty-two and one-half acres was sold to Mr. P. H. Watson, of New York, for the handsome sum of \$35,000. The sale was negotiated by Dr. C. E. Enley, and is a part of the extensive sales in real estate which the Dr. has for some time been and is still negotiating with a company of New York and English capitalists, who are buying up the country lands for their mineral values. The hotel, we understand, is to be enlarged and renovated, and furnished with all the modern improvements, the intention being to make it the headquarters of the county in this section.

SOME WHEAT.—The editor of the Greeley Democrat says: "We were shown a sample of the Russian wheat which it weighs sixty-four pounds to the bushel, and it is said to yield thirty bushels to the acre. The grain on the grain is very thin and white, and we are hungry for some of the bread made out of such excellent wheat as this looks to be. Mr. Steele is the first man we know of who brought it from the east, and Dr. Landon, of Greenburg, has raised some three hundred bushels of it on his stock farm, near Greenburg. Farmers would do well to get some seed and try it."

ASSISTANT ASSESSORS.—October is the time fixed by law for the citizens of each township to elect their Assessors. The electors of each township and township are to vote for two persons at the approaching October election to serve as Assistant Assessors. The triennial assessment comes in November, and the very best man should be selected for this important position, because they have the power to set the value of all real estate for three years. Hence the necessity of selecting men who are well versed in the value of property, because all taxation is based upon and fixed by their judgment.

Married.—On August 26th, at the residence of the bride's father, Rev. George Fryer, Rev. J. S. McMurray, Mr. CLARK GREEN, of this place, and MRS. MARY ANN GREEN, of Erie, Pa. were united in the holy bonds of matrimony. The bride was Miss GREEN, daughter of Mr. Wm. Green, of Greenburg, Pa. The groom is Mr. Clark Green, of Clearfield, Pa.

Root and Shoe Making.—Notions being given that letters testamentary have been granted to the administrators of the estate of Mrs. ELIZA FLANNAGAN, Pennsylvania, all persons indebted to said estate are requested to make immediate payment, and those having claims against the same will present them duly authenticated for settlement. JAMES B. GRAHAM, Executor.
