SAD ACCIDENT .- On Friday last a ittle four-year old son of Mr. Forsyth, at the Snew Shoe mines, was burnt to death, under the following circumstances: A neighboring lady had gone to Snow Shoe on some buriness, leaving her house in charge of a little girl, with whom Mr. Forsyth's boy was in the habit of playing. Towards evening the little girl attempted to make a fire in the stove, as many older people foolishly do, by pouring coal oil on the faol. The can, coming in contact with the flame, exploded, and Mrs. Forsyth bearing the screams of the children, ran in to find her son enveloped in flames. THE KEATING & KARTHAUS RAILnogo.—It is with pleasure that we lay before our readers this week, a detailed report of this con-templated railway, which is to pierce the lower end of this county for the purpose of developing its resources. The millions of buried wealth in Karthaus township, amply set forth in this report; Mr. Wallace is not candidate, and the other that must be indeed gratifying to the citizens of that article, I have since ascertained, was portion of our county. It will be noticed that the engineers predict just what we have often stated in these columns—that the Moshannon Valley, via SQUARE TIMBER & LUMBER. Karthaus, would yet be made the great outlet for the mineral deposits of that section. Heavy freight, such as coal, iron and lumber, cannot be profitably hauled over a grade from ninty to one always tried to impress upon others, a public of hundred and twenty feet to the mile; hence, comoffice—and particularly a representative office—mon sense and commercial cuterprise will seek other avenues for the transportation of these com modities. The actual loss to shippers and rail road owners in ten years, over such grades as are should manifest a desire, that I should be a candidate, the one "fact" might be as you state it. But
