

2 per annum in Advance.

AN OLD ADAGE.

"Poverty comes in at the door, goes out at the window." So says the adage. And they expect us to say! Out upon such simplicity! In or woman but will bolly con it, whenever and wherever they spoken. If there ever existed poor, hearty, honest folk, that the

[illegible]

**Woe Booms—**"What an amount of discontent woe boots entail, and how well we all recall the painful efforts we have now and then made to draw one pair of black stockings over another pair of white brought to dry! Once, on, they are a sort of modern stocks, destructive of all comfort, and entirely demoralizing to the temper. The following plan it is said, will do away with this discontent: When the boots are put on, take a grain of salt and rub it into the sole. This grain has a great tendency for damn and will rapidly

and there, in his own humble  
quarters he accepted the lover which  
he had chosen. When he was alone  
usually one.  
The people said she was too "proper"  
and that she was "throwing  
away." But those who knew her  
said she had done nothing so  
nor so she had.  
She had been looking so beautiful  
when she stood by her hus-  
band's side in their plain little home,  
the hope of their future. And in  
those years, when, by their united labors,

REMARKS THROUGH THE NOSE—  
The pernicious habit of breathing  
through the mouth while sleeping or

the same sweet expression rested on their features; but the eyes of the one were turned away from all gone, and in its place were the eyes of the other, which proclaimed more plainly than ever how late that "poverty" had put love to flight, but that it was never to be exiled and purified self poverty.

"So if it be, then, should we not be?" From the belief will come. To do that it is to cause the alarm which springs from the very of the adage. The love

many persons who sleep with the mouth open, and do not know it. They may go to sleep with it closed and wake with it closed; but if the mouth is dry and parched on waking it is a sign that the mouth was open while they were asleep. Snoring is certain sign. This habit should be overcome. At all times, except when eating, drinking or speaking, keep the mouth firmly closed and breathe through the nostrils; and retire with a firm determination to breathe through the nostrils, and proper breathing apparatus is the mouth.

the trials and its troubles, is not never alterable; and while it is vital energy to nourish it, the ballies every attack made by the phanton disease, it is able to drive it out of the window, hastening influence of poverty, easing the heart and purifies the saving behind the eudemonia of, content and happiness. The if, poor are the lives of the

day for the purpose of despoiling a man's rights. The men, I believe, were created exactly equal to the women. I also believe the world to be happier to-day if man had existed. As a failure a man is, and I think not a woman. (Applause.) I only maintain these principles, maintain a shiftless husband be. They say man was created

potatoes always fall asleep? If a botanist man, I would bet two they are. The only decent thing I was a rib, and that went to the head of the class. When they throw into our feeding an apple, I'll bet it's that Adam boosted Eve up the and only gave her the core. And did he do when he found out she was eating it? He was behind Eve's Greenland head, "I wasn't a me," "was her," man has to be father every mean

The ballot, and the ballot were to have, if we have to let down kick half and swim in a sea of murky gore. (Sensation.)

Mr. Hoscoe, of Odell, Illinois, is a farm, needed a well, and he thought he bore to water. He clung a distance of forty feet below surface, he smelt something faintly, he pushed forth his head, he saw a snake, he took revenge, for it spat once two feet into the air, mixed with

to taken to Rochester and shown to scientists.

Paper is now used very successfully for making buggy boxes, baskets, bellows for machinery, boots, clothing, household utensils, etc., etc. For buggy boxes its utility is highly appreciated, as there is danger of its shrinking or cracking while it is so tough and strong. It is almost impossible for a horse to kick it and make any impression on its surface. It is capable of sustaining a very high polish, and the facility

overing the ground with sand  
and six inches deep. After some  
the flow of water ceased—and  
Why then came gas? They held  
each match to the hole—and then  
a streak of blue flame leaped  
out, and there was a sound as if  
of fire, which could be heard at the  
end of half a mile. At the latest  
stage unpleasant pyrotechnics con-  
cerned the hole was increasing in  
the volume of flame and noise.  
The growth of the vegetation was tris-  
sing, final and horror stricken.

—

shape desired is also advantageous.—  
There is no doubt that it will eventu-  
ally supersede wood in the manufac-  
ture of many fancy articles, and that  
it is well for the purposes above will be-  
come general.

Mr. and Mrs. Marrowfat were hav-  
ing a talk about the misunderstanding  
between Dr. McGosh and Professor  
McGosh, and Mr. McGosh was ex-  
plaining that the Professor considered  
the potential particle from which,  
through a series of combinations with

and the other two, who were also on the premises, were immediately suspended. When landman asks Nature for water, they get gravel and fire, he may conclude that something is augh what that something is in know.

**FEET OR HOSE.**—For a number years past a swarm of bees have been making their home in the cornice of the house of Mahlon Boston, Esq., of the town of Danvers, Vt. The bees, to the amount of 75,000, and bidding

matter and mind was made, while the Doctor met this by declaring that somebody must have made the atom, at which point Artaxerxes broke in with, "Pop, who made the somebody?" and vanished before his father could reach him.

Twenty barrels entered as "salt meat" and "sugar beef" were seized at Portsmouth, England, October 23, and in each barrel was found the corpse of a full grown negro. They reached England from the United

He was mildly and pleasantly surprised to find his English writer, Mr. Bishop, had inquired strongly of their coming some time past; but it was no more, as a portion of the roof of the house would have to be taken off in order to get access to the sweet treasuries of the little library. He had been told that the company with him—Franklin and Davis—and a few friends, Samuel W. Pusey and Edward Worrell, went to work, and that the work was done with a very wide, about sixteen inches in width, and the roof was replaced in London; but who sent them and where did the sender get them?

A party of about two were sent on the evening of the night. They sat on the edge of a pavement which had recently been repaired with a solution of tar. The next morning the paving was found adorned with the remains of six pairs of stylish trousers, and many shoes heard no more around that cottage.

According to an Auburn paper they

were packed solid with honey,  
 when returned filled a large  
 tub. Our informant says he  
 the bees have been living there  
 past nine or ten years.

Colorado exchange says: "The  
 City girls don't take kindly to  
 it. They say its too high-toned  
 em. Leap-frog is their best

addition to their seminary, "to accom-  
 modate eighty-six students 200 feet long."

Henry Goddard Bailly is the name  
 of a boy in Springfield, O. If we were  
 your parent, Henry, Goddosh we'd  
 knock your middle name out of you.

An eastern debating society is try-  
 ing to settle which is the hardest to  
 keep, a diary or an umbrella.
