DEMOCRATIC MEETING.

The Democrats of Clearfield county are hereby notified to assemble in the Court Room, in Clearfield on Tuesday evening, March 10, 1873.

(Court work) for the purpose of choosing a Representative Delegate to the approaching Democratic State Convention, and to select three Committees to meet those of Clinton and Centre, for the purpose of electing a Senatorial delegate.

W. M. McCULLOUGH,

Clearfield Feb. 24th, 1873. Chairman.

Brookville, like Huntingdon, is agitated over the Water Works question.

A reunion of the Pennsylvania Reformed Service is to come off at Williamsport on the 2d of June.

Communion services were held in the Presbyterian Church last Sabbath.

The Williamsport Sun says the match factory in this city is preparing the sticks for a factory in England.

Col. Hartshorn has our thanks for a copy of Smith's Hand Book and other Legislative documents useful to priests.

Snow fell in this region, on Sunday night, to the depth of fifteen inches, ploughing through snow-drifts, causing some delay.

The sentiment, "Oh, the snow, the snow, it is a snow storm," is often played out in this latitude. Too much of a good thing is as bad as none.

DAMAGED.—We notice by a correspondence in the Belmont Standard, that the recent ice flood done considerable damage to the Karkh bridge, it being barely passable.

CONVENTION.—We expect to receive all our priests in town next week, and have therefore prepared a few lots of blank receipts, which we will fill up at their request for future use.

The Cheyenne County Normal School for the year 1872, will be held in the borough of Carversville, commencing on Monday, May 10th, 1873. For further information, address J. A. GARNIER, Clearfield, Pa.

MORE NOTARIES.—We learn that Dr. Hartmann has appointed and commissioned Mr. N. E. Arnold, of Carversville, and Mr. Samuel Sayers, of Ossian Mills, as Notaries Public. They are both practical and fully competent for the duties assigned them.

Munich had a fire on the morning of the 2d inst., destroying the properties of the heirs of Joshua Bowman and Baker Longsone, and the stock of T. Taggart & Co. The loss is estimated at \$12,000, partially insured. It is supposed to have been the work of an incendiary.

JOHN COOPER, President of the First National Bank of Columbus, and a prominent citizen of that borough, died on last Thursday evening at his residence. He was aged 70 years, Elvira Cooper, of this borough, and Jeremiah Cooper, of Glen Hope, this county, are nephews of the deceased.

INCENSE.—The editor of the Lock Haven Reporter, in a few weeks ago, that he was about as bad as Sodom and Gomorrah. The editor of the Democrat denied the charge, and comes by saying: "We think to put Lock Haven on a grade with them is great injustice." To which, Sodom or Lock Haven?

PROMOTED.—We learn that Governor Hartranft has appointed as member of the Legislature, Col. W. R. Hartnett, a member of his staff, with the rank of Colonel. It is with pleasure that we chronicle this promotion of Col. Hartnett, as he is honorably named by his neighbors, and are satisfied that the confidence reposed in him by His Excellency will not be violated.

MEETING OF AGRICULTURAL SOCIETY.—A meeting of the Clearfield County Agricultural Society will be held in the Court House, at Clearfield, on Monday evening, March 13th, 1873, for the purpose of electing officers for the ensuing year, and the transaction of other important business.

EDWARD LEWIS.—We learn that Edward Lewis, of the Post Office, has been established at the west end of the same street, in this vicinity, called Salabys, and Henry Doubleday Postmaster.

Mr. Lewis' shop has been appointed Post Office, and now bears the name of Edward Lewis, and Mrs. Sarah S. Doubleday, Postmistress at Patchinville, all in this country.

COAL ROYALTY.—The Phillipsburg Journal states that Pittsburg parties have leased the coal mines of James P. Hale of Ossian, and the Mapleton branch, and the coal of the latter will be sold on royalty. This is the largest royalty paid in this region, but is also the only place where the mines are opened, track laid, roads erected, and everything in running order at the time of leasing.

ELLWOOD ON SNOW.—The Phillipsburg Journal has had to say this in its issue of the 5th instant:

"Wednesday, the third day of spring, brought the deepest snow of any day of the season. If not for the intense cold, we should not have been able to see what the man thought when he got up on Monday morning, eh?"

RATHER OLD BUTTS.—The Central Pennsylvanian says: "A rather old fashioned, but very good looking, black and white pair of butts, still in good order, were knocked off to G. L. Larimer. These pieces were made fifty years ago for G. L. Larimer, and after the death of the latter, were bought by Hugh Larimer at the sale of deceased's personal property, and now they have been hawked again by his son, G. L. Larimer, of Pleasant Gap."

HIGHBURNING.—We notice by the Gazette, that Judge Orvis is at Bedford Springs, or near by. The journal in question says: "Hon. John H. Orvis, Additional Law Judge of the 5th Judicial District, is presiding over the several Courts in this county, this week. He has already made half of friends in our county, and has been received with open arms, and will now stand in front of the judiciary in the State."

DEATH OF HARVEY MANN.—We chronicled the disaster on the Pan-Handy Rail, a few weeks ago. Mr. Mann was one of the victims. The Belknap Wadsworth, a man of 20, was killed.

WAGGONERS LOSING fast, recovered that he was being rapidly and could live but a few hours. That afternoon Mrs. Mann, his mother, started for Newville, arriving there on Saturday morning, a few hours before her son died. He was conscious all the time, and the grieved mother had the sad satisfaction of being recognized by him. The remains were brought home in a special train, arriving here on Sunday. On Monday the funeral took place, and it was one of the largest ever seen in this part of the country, there being some eighty vehicles in the procession.

"Harvey Mann was 37 years of age, and a gentleman of very quiet and retiring manners. He was a capable and considerate husband and man, and the comfort and solace of his widow mother. He was unmarried and rich, and generally considered by everybody. His funeral was largely attended by the business employer of the wife, who all deeply regret his untimely and sudden fate.

"The accident which caused Mr. Mann's death was precipitated by a broken rail, which threw the car down, so it was an embankment twenty-five feet high. His wounds were a terrible one, in the right arm, the right eye, and the left arm, the left hand, breast and side. Four doctors attended him, and, until Friday morning, he was not considered to be in danger. Immediately after news of the accident was received here, Mr. Cameron Lorraine, his cousin, started off to Stephenville, and with him through all the trouble.

"Mrs. Mann was the grandchild of Judge Thomas Barnard, and the nephew of Judge James Birney.

A NEW HORN.—It appears that not bridge wharf public necessity demands, are not as often, unnecessary and expensive as they used to be. This is evident from the fact that, which we ship the freight of the 3d inst., which reads as follows:

"There is no new bridge, and yet we have a large number of wagons, horses, and teams, and a great many men, who are engaged in getting across the river, and we are up to our ears in water."

Well, all we have to say, let those who reside in the vicinity where a bridge is a public necessity "look down on paper" for one-half the cost of building a bridge, and we will do our best to prevent them from being "guaranteed" in bringing their case before the "paper authorities."

Bridges over large streams at a public crossing are necessary, to our estimation, as a cross road, or a bridge on that subject, which we ship the freight of the 3d inst., which reads as follows:

"It does seem strange that the actual wants of the citizens are ignored in bridge matters in one part of the country, while in another part they are up to our ears in water."

Well, all we have to say, let those who reside in the vicinity where a bridge is a public necessity "look down on paper" for one-half the cost of building a bridge, and we will do our best to prevent them from being "guaranteed" in bringing their case before the "paper authorities."
