"Our War Governor"—Such is the title the Radicals conferred upon Andrew 6. Curtis years ago. He is still the same towering and able statesman, but having become tired and sick of the corruptions and wrongs perpetrated upon the people by his old party friends, he has joined the Democratic party, and is now waging a crusade against the free-beoters who have almost ruined our country. Having held in the control of the corruption of the corruption of the corruptions and wrongs perpetrated upon the people by his old party friends, he has joined the Democratic party, and is now waging a crusade against the free-beoters who have almost ruined our country. We are opposed to kicking or oufling anything when it is down.

Having held the highest position that his party could confer upon him, he is just the man the Democrats need to give the people an inside view of the corresponding and since the war. His election to Congress is a foregone conclusion, and he will enter that body after the 4th of March next, surrounded with more prestige for influence than any other member, and the people of the XX. Congressional District of Penasylvania may well be proud of their representative.
