OUR IMMENSE NUMBER TRADE. REVIEW OF THE BUSINESS FOR THE LAST YEAR. A Williamport correspondent recently furnished the Philadelphia Record with the details of the West Branch lumber trade as follows:

At the beginning of 1879 the prospects for the lumber manufacturers were not very encouraging, but with the revival of business later in the Summer came a sudden and marked demand, which steadily increased till it grew into a regular boom.

The total shipments of lumber from Williamsport during 1879 are recapitulated as follows:

Table with columns: Month, Total, and Remarks. Shows monthly shipment data for 1879.

Forty-eight pupils attended the West Clearfield school during the month of December without missing one day.

Prof. C. C. Baugh, of Lumber City, will accept a position in Greensburg, Westmoreland county, the coming Summer.

The time fixed for holding the Teachers' Local Institute at DuBois is February 6th and 7th. A large attendance is expected.

Additional copies of the Institute proceedings have been ordered to be printed, which can be had for 10 cents each, postage prepaid.

The directors of Penn township have mapped out a two-days' visit to the schools in that district. They intend going in a body. This is interesting.

We will be prepared early in March to furnish each School Board in the county with two copies of the revised edition of the Pennsylvania School Laws.

Last week, in the death notice of J. F. Squadman, the types made an error, "natural thoughts" was substituted for "read" and "natural thoughts" was also "was for "win."

Arrangements are being made by the people of New Washington for a January school in Woodland District. The community have manifested their interest in educational matters by the liberal contributions offered for the school.

The following question is being discussed by the citizens of Penn township, upon which there are a variety of opinions: A cannon ball is fired from the middle platform of a train of cars perpendicularity into the air. The train is moving at the rate of sixty miles an hour. Will the ball reach the Earth at the exact spot of the discharge? If not, how much will it vary? Perhaps some of our teachers would be kind to help the contestants out of the dilemma.
