ing products of the country bave pooled their interests and advanced their wares from twenty to fifty per cent. What prosperity this will entail on the country; we are unable to see, because there are about one thousand consumers to one manufacturer. To state the facts practically, we will allude to eur own case to show how prosperity will strike us for the current year. In 1879, our bills for paper and stationery Reader, if you want to know what is going on the business world, just read our advertising lumns, the Special column in particular.

1879, our bills for paper and stationary amounted to the sum of \$981.60, or, tor the sake of round numbers, say for the sake of round numbers, say \$1,000. Since the first of November, No man worthy the effice of President should be willing to hold it if counted in, or placed there by any fraud.

I. S. Grant.

I could never have been reconciled to the elevation by the smallest aid of mine of a purson, however respectable in private life, who must forever carry upon his brow the stamp of fraud first triumphant in American history. No subsequent action, however meritorious, can wait away the letters of that record, when the control of the Leutsiana Returning Beard, or of the Commission which excluded the facts and decided the question as a technicality. mission which excluded the facts and decided the question on a technicality.

Ender the forms of law, Eutherford It. Hayes has been declared President of the United States. His title rests upon disfranchisement of aseful voters, the false certificates of the returning officers acting corruptly, and the decision of a commission which has refused to hear evidence of alleged fraud. For the first time are the American people confronted with the fact of a franchisenty-leaded President. Let it not be understood that the fraud will be silently acquienced in by the country. Let no hour pass in which the usurpations to first proposed. 1879, or must we hand the \$400 over country. Let no hour pass in which the usurpation is forgottes.

One hundred years of human depenvity secumulated and concentrated into a climax of crime.

Never again in five speak the wrong.

ATTEMPT AT WHOLESALE POISONING.

CINCINNATI. January 18.—On Thursday evening Mary Nunn, a colored girl, living with Samuel Montgemery, of Oberlin, Ohio, attempted to poison his whole family. She had been discovered in a petty theft and severely reprimanded by Mrs. Montgemery, in revenge for which she put large quantities of arsenic, used for rat poisson, into a dish of out ment prepared for the family supper. Seven out of the nino at the table ate this poisoned food, and were saved from death through the fact that the girl had been too liberal with the poison, thus producing nausea, from which the members of the family have been suffering terribly ever since. The girl was arrested and placed in jail.

RECENT LEGAL DECISIONS.—An En. THE TRUE VIEW OF OUR SYS-lish judge has decided that a set of TEM OF GOVERNMENT.

glish judge has decided that a set of artificial teeth is not one of the "nocessaries" of a larmer's wife, which the husband is bound to provide to pay for when furnished without his consent by a dentist. The question has just been raised in one of the county courts of Ireland whether the Bible is a necessary of life to a married woman. The good wife, during the temporary absence of her husband, bought a Bible, had it charged to him, and then ran away with another man. She soon returned to her husband, who received her, but obstinately refused to pay for the sacred volume which she had purchased preparatory to her elopement. The Connecticat court of errors has beld that neither a paw in church nor religious instruction is among the necessaries which a husband is bound to provide for his wife. It has been held that a yoke of oxet, but not a saddle horse, nor fiddle strings, are necessary for a youth in his teens. While an English court dined to a worthy farmer's wifethe necessary and very economical means of enjoying her roast beef, it has decided that \$470 worth of lace and side saddle are necessaries to the wife of a sergeant. The Supreme Court of Illinois held in recent case, that one revolver was necessary to a Chicago grocer traveling, but that more was superfluous.
