SECRET OF THE SEA DEPTHS.
When Professor W. B. Carpenter placed before Mr. Gosnell, then first of the British Admiralty, his scientific plan for a circumnavigation expedition, which resulted in sending the "Challenger," he expressed the belief that the key to the interpretation of much of the past history of our globe lay in the study of the bottom of the sea waiting to be brought up.

A SACRED RAILROAD.
Fifteen men in Massachusetts have organized themselves into a joint stock company, each man holding one share of one hundred dollars of Palestine railroad stock. They have obtained their charter. The enterprise is said to be backed by the financial support of the State Government, and so soon as the preliminary permission can be obtained from the Turkish Government, the work of construction will be begun.

Education is a better safeguard of liberty than a standing army. It is the only way of the schoolmaster, we must take these of the resulting progress.

Truth, like roses, often blossoms upon a thorny stem.

Get your annual reports and certificates ready for the new school year draweth nigh.

Goshen Township Directors are already talking of an advance in the wages of their teachers.

In all our schools arithmetic is taught too much, and literature and composition are not taught enough.

It is our intention to hold a series of educational lectures throughout the county during the time of Fall examinations.

A. L. Scofield opened a contract school at Jackson, in Dutch township, on Monday, May 17th, to continue in session twelve weeks.

Misses have found their way into the most crowded school in the county, and a number of the scholars are prostrated by the disease.

The students attending the Burdette and Chamber City schools under the New Washington Normal Institute, are boarded in good families for \$2.00 per week.

Miss Annie P. Read, of Lawrence township, will teach the Pateville school the coming Summer, and her sister, Fannie, will teach the Spruce Hill school, in Union township.

Mr. C. A. Forey, for some years past a teacher in the schools of Graham township, has done what no other teacher has done in this county. He has been successful in his efforts to get the township to support a school for the poor.

By the act of May 18, 1876, no person hereafter elected shall be capable of holding and exercising the office of School Director, unless he is a Commissioner of roads, and that of township or borough Auditor at the same time. The above is frequently overlooked, and Directors are chosen who are not eligible to the position.

Miss Ellen Brown, now a member of the Curwensville High School, has attended the public schools of that township for forty-five months, or one month less than the longest record in the State. Miss Gladie Pick, of the Clearfield school, in Beccaria township, has attended that school five continuous terms of five months each, or twenty-five months without missing a day.

Directors should be careful about this time when the book agents make their appearance and entreaty upon their friends individually for positions that they observe in all cases the Act of April 11, 1862, which says "that no tax for school or building purposes shall be levied on any real estate that is not adopted for the purchase or sale of any school real estate, no school house shall be located, or its location abandoned or changed, no teacher shall be appointed or dismissed, no annual school report be made, no resolution be adopted, or any other act of the board
