Important Discovery.

CONSUMPTION Diseases of the Lungs and Throat

ARE POSITIVELY

CURABLE BY INHALATION!!!

which conveys the

Remedies to the cavities in the lungs through the air
passages, and coming in direct contact with the disease,
neutrolizes the tubercular matter, allays the cough,
causes a free and easy expectoration, heals the lungs,
purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state
confidently that Consumption is curable by Inhalation,
is to me a source of unalloyed pleasure. It is as much
under the control of medical treatment as any other
formidable disease; ninety out of every hundred cases
can be cured in the first stages, and fifty por cent. in the
second; but in the third stage it is impossible to save
more than five per cent., for the lungs are so cut up by
the disease as to defy medical skill. Even, however, in
the last stages, inhalation affords extraordinary relief to
the suffering attending this fearful scourge, which anunally destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that
of the present population of the earth, eighty millions
are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as
Consumption. In all ages it has been the great enemy
of life, for it spares neither age nor sex, but sweeps off
alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom
cometh every good and perfect gift, I am enabled to offer
to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from Impure
Blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of
air into the air cells, which causes a weakened vitality
through the entire system. Then, surely, it is more rational to expect greater good from medicines entering
the cavittes of the lungs, than from those administered
through the stomach; it pe patient will always find the
lungs free and the breathing eas

life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicioes is perceptible in the skin, a few moments after being inhaled, and may be inamediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from disenses of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is or longer a fatal disense.—My treatment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case.—This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to itrenewed vitality, giving onergy and tone to the entire system.

Medicines, with full directions, sent to any part of the United States and Canadas, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to preseribe with much greentor certainty; and then the cure could be effected without my seeing the patient again.

Diabetes, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St.Vitus' Dance, and all Diseases arising from a derangement of the Sexual Organs, such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dinness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pain in the Back and Head, Female Irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, Recovery is Certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has buffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or belsam. During twenty years of practice, I have rescued from the Jars of Death many thousands, who, in the last stages of the above-mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause denth speedily and the victim marries, the disease is entailed upon the children, who are born with feebl ous practices my patients can be restored to robust, vig

orous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack electors, or the equally poisonous nostrums vended as "Patent Medicines." It have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the Materiak Medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and femiales treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable curies. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address

A MEDICAL REVOLUTION

HOLLOWAY'S OINTMENT.

The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cold and regenerating influence. Skin Diseases and Glandular Swellings

The effect of this unrivaled external remedy upon Scyfola, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces supportation and proud flesh, and thus the cures which its healing propesties afterward complete are safe as well as permanent. which is hearing propesties afterward complete at safe as well as permanent.

Wounds, Bruises, Burns and Scalds.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruisses, Buens, Scalds, Rheematism, Stiffness of the Joints and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

The Medical Staff of the French and English Armies in the Crimea bave officially signed their approval of Holloway's Gintment, as the most reliable dressing for salve cuts, state, and gun-shot wounds. It is also used by the Surgeons of the Allied Navies. Both the Ointment and the Pills should

be used in the following cases:

of Society, Nothing is more desirable to such Pa-

pose of manner, no earnestness, no Speculation, but a hurried transition from one question to an-

question to another.

These symptoms if allowed to go on—which this medicine invariably removes—soon follows Loss of Power, Fatuity, and EFILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the hame Asylums, and the melautholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melaucholy exhibition appears. The Countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it; should a sound of the voice occur, it is rarely articulate.
