which conveys the

Remedies to the cavities in the lungs through the ai.
passages, and coming in direct contact with the disease,
neutralizes the tubercular mafter, illays the cough,
causes a free and eigh expectoration, heals the lungs,
spirifies the blood, imparts renewed vitality to the bervone system, giving that tone and energy so indispensable for the restoration of health. To be able to state
confidently that Consumption is curable by Inhalation,
is to me a source of unalloyed pleasure. It is as much
inder the control of meital treatment as any other
formidable disease; pinety out of every hundred cases
can be cared in the first strices, and fifty per cent, in the
second; but in the third stage it is impossible to save
more than five per cent, for the lungs are so cut up by
the disease as to defy medical skill. Even, however, in
the last stages; filmlation affords extraordinary relief to
the sufficient attention of the earth, eighty infliens
are destined to fill the Consumptive's grave.

Truly, the quiver of death has no arrow so fatal as
Consumption. In all ages it has been the great enemy
by files, for it sparse midller age nor sex, but sweeps off
allike the brave, the beautiful; the graceful, and the gifted. By the help of that Supreme Being, from whom
cometh every good and perfect gift, a sur enabled to offer
to the afflicted a permanent and specify cur in Consumption. The first cause of tubercles is from Impure
Blood, and the immediate effect, produced by their delpstifien in the lungs, is to prevent the free admission of
air into the air cells, which causes a weakened vitality
through the entire system. Then, surely, it is more rational to expect greater good from modifiens entering
the cavities of the lungs, than from those administered
through the stomach; the patient will always find the
lungs and the branching received by the stomach. To
prove the powerful and direct influence of this modeseries and the p

CURE IS GUARANTEED SECRET DISEASES,

cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined by the vide compounds of quack doctors, or the equally poisonous nostrums wended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury and a treatly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the MATERIA MEDICA, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all discusses of males and females treated on principles established by twenty years of practice, and sanctioned by thousands; off, the most remarkable cures.
