Dillika DELETINA ALEDICAL HOUSE.—Established twenty two years ago by Dr. KINKELIN, corner of Third and Union streets, Philadelphia, Pa. TWENTY-TWO YEARS' Experience has rendered Dr. K. a most successful practitioner in the cure of all disenses of a private nature, manhood's debility. as an impediment to marrisge; ner-yous and sexual infimities, diseases of the skin, and those arising from abuse of mercury. TAKE PARTICULAR NOTICE. There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; solitude, often growing up with them to manhood; serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. We invariably answer letters by return mail en-closing the tickets in a good safe envelope, and al-

MANUFACTURER OF Improved Fire and Water Proof COMPOSITION ROOFING,

HARRISBURG, PA., RESPECTFULLY inform the citizens of Har-risburg, Reading, Lancaster, Lebanen, and their vicinities, that we are prepared to put on roofs on most liberal terms, and at the shortest

notice. We respectfully call the attention of persons a-bout to build, to our invaluable method of rocfing,

bout to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of roofing having all the combined requisites of cheapness, Durability, and Security against Fire and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters $(\frac{3}{2})$ of an inch to the feot; and in many cases saving the outire cost of rafters—the colling is the hore used

many cases saving the online cost of ratters-the ceiling joist being used. The gutters are made of the same material, without any extra charges; consequently, our roofs are put up at almost half the cost of either Tin, Slate, or Shingles. The material being of an imperishable nature, it surpasses all others in Derivities besides in case of any equality it Durability ;-besides, in case of any casualty, it is the most easily repaired of any other roof now

in use. Yct, the best proof we can offer as to its being both fire and water proof, are our many re-ferences, to any one of whom we are at liberty to refer. N. B .- But let it be distinctly understood (since we manufacture our own composition, and do the work in person,) that we warrant all our work proof against both Fire and Water; if they

prove contrary, we will most willingly abide the results. The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Thoso wishing to use our roof should give the rafters a pitch of about one inch to the foot. [mey 27, 1854 __1m]

rise to a series of protracted, Insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the ner-vous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. (See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."] The unfortunate thus affected becomes feeble, is una-ble to labor with accustomed vigor, or to apply his mind to study ; his step is tardy and weak ; he is dull, irresolute, and engages even in his sports with less ener-gy than usual. If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unforth ful, and his sense tells hist that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated. To be able to state condiently that Consumption is curable by Inhalation; is to me a source of unalloyed pleasure. It is as much under the courted of medical treatment as any other formidable disease; ninety out of every hundred cases can be curred in the first stage, and fifty per cent. in the second; but in the third stage it is impossible to sare more than five per cent, for the lungs ares oc ut up by the disease as to defy medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which an-nually destroys ninety five thousand persons in the U-nited States alone ; and a correct calculation shows that of the present population of the earth, eightly millions are destined to fill the Consumplive's grave.
