

The Corner.

Art thou an aspirant for fame? And wilt thou sit among the ruins With all words of cheer unspoken...

WHAT IS AN INSULT?—Justice King, of Chicago, has decided, on an application for a warrant, that to spit in a man's face, knock him down and kick him, is not an insult.

A YOUNG girl is "folly to expect a young girl to love a man who every body speaks well of. Get up a persecution, and her affections will cling so fast that a dozen guardians can't remove them."

"It is stated, by authority, that a new fashion is about to be introduced by the ladies of Buffalo—no less, in fact, than an immense calash which is to be attached to the waists of the dear creatures, to be raised and lowered at pleasure, like the top of a buggy. Buffalo papers frankly ask, 'what next?'"

The Buffalo Courier is responsible for the following statement: One of the most remarkable instances of love at first sight on record occurred in this city a day or two since. A lady from the country had business to transact at a lawyer's office, in which a somewhat diffident attorney had his desk. In the course of the business the eyes of the parties met; the attorney was smitten; he declared his passion, and was accepted. The couple were married in the afternoon.

A MAN who cheats in small measure, is a measureless rogue. If he gives short measure in wheat, then he is a rogue in grain. If in whiskey, then he is a rogue in spirit.

If he gives a bad deal of land, then he is a rogue in deed. And if he cheats whenever he can, then he is in deed, in spirit, in grain, a measureless scoundrel.

A MODEST MAJOR.—Sometimes it is the misfortune of a city to have an ass for Mayor. Such a case about twenty-five years ago with certain city, which it would be impolitic, not to say impolite, for us to name in this connection. He was so ignorant that the wrong sent a book-peddler to him with English grammar immediately after his election, and when he declared he had no use for the book the peddler said, "Everybody tells me you must have it, and study it, too." He came into office, and took his chair in stately dignity. In a few minutes the clerk laid before him a paper, which the Mayor was requested to endorse as one that had passed under his eye. The clerk remarked: "It is only necessary that you write your initials upon it."

"My initials," said the Mayor, "what's your initials?" "I," replied the clerk. "Now it so happened that P was the first letter of both the Mayor's name and the clerk very innocently replied: 'Observe, merely write two P's upon the back of this paper.'" His Honor the Mayor took a quill in his trembling hand, and with the perspiration on his brow wrote "roo PEEZ," and the document is on file in the office upon this day!

LEMBERGER'S Cloth Manufactory!

JAMES F. MAXWELL.

MANUFACTURER OF Improved Fire and Water Proof COMPOSITION ROOFING, HARRISBURG, PA.

RESPECTFULLY inform the citizens of Har-risburg, Reading, Lancaster, Lebanon, and their vicinities, that we are prepared to put on roofs on most liberal terms, and at the shortest notice.

We respectfully call the attention of persons a-bout to build, to our invaluable method of roofing, now much used throughout the principal cities of the United States and their vicinities. This mode of roofing, having all the combined requisites of cheapness, Durability, and Security against Fire, and Water, and dispensing with high gable walls; the roofs require an inclination of not more than three-quarters (3/4) of an inch to the foot, and in many cases saving the entire cost of rafters—the ceiling joist being used.

The gutters are made of the same material, without any extra charge; consequently, our roofs are put up at almost half the cost of other Tin, Slate, or Shingles. The material being of an imperishable nature, it remains all others in Durability; besides, in case of any casualty, it is the most easily repaired of any other roof now in use.

Not the least, we can offer to its being both fire and water proof, are our many references, to any one of whom we are at liberty to refer.

But let it be distinctly understood, (since we manufacture and personally come out to do the work in person,) that we warrant all our work proof against both Fire and Water; if they prove contrary, we will most willingly abide the result.

The materials being mostly non-conductors of heat, no roof is so cool in summer, or so warm in winter. Those wishing to use our roof should call on the undersigned, at his office, No. 101 Chestnut street, Leba-non, Pa., on the 15th inst.
